Hi Wayne and Jane,
Not a problem or a burden - I'm not aware of any issues that the County needs to weigh in on regarding Laramie's well drilling in this location. Therefore, I'm asking Jane to please accept a 305 c waiver on these locations **that you requested:**

Furr 22-06C
API No: 05-045-18463
SWNE Sec. 22, T07S, R95W 6th
Expired 6/10/2010

Furr 22-07A
API No: 05-045-18472
SWNE Sec. 22, T07S, R95W 6th
Expired 6/10/2010

Best of luck,
Judy

Hi Judy,

Need to ask for some help.

I got caught in the confusion (my) of the new rules. It was my interpretation permits approved after the new rules came into effect were granted a one year extension. When I checked the listing supplied by the COGCC to LE II, the two referenced wells were not extended. The permits did not fall within the window of extension the COGCC had established so did not meet the extension requirements.

To make a long story short I need to re-file these permits and request expedited approval. To do so, Jane Stanczyck with the COGCC recommended I contact you and request a waiver to rule Rule 305. c. "Comment Period" from Garfield County.

To give you a comfort level, the well pad these permits are on is existing and also had a Form 2A approved earlier this spring with these wells included as part of the assessment. No changes to the permits except we have to move the wellheads `20' from their original location to allow for another well which was approved this weekend.

We have a drilling rig in the area (Jacks Pocket) and I would like to be able to keep it centralized to reduce the standby cost as well as the impacts to the people in Battlement Mesa. I hate mobilizing the rig through town.

This issue is entirely my fault and any help you might be able to give me would be greatly appreciated. I intend to electronically file the permits in the next day or so.

The legals for the 2 wells are:

Furr 22-06C
API No: 05-045-18463
SWNE Sec. 22, T07S, R95W 6th
Expired 6/10/2010

Furr 22-07A
API No: 05-045-18472
SWNE Sec. 22, T07S, R95W 6th
Expired 6/10/2010

I apologize for burdening you with this issue.

Thanks
