REMEDIATION WORKPLAN (Cont.)

OGCC Employee:

If groundwater has been impacted, describe proposed monitoring plan (# of wells or sample points, sampling schedule, analytical methods, etc.):

GW was not observed in the pit to a max. excavatecd depth of 6' BGS.

Describe reclamation plan. Discuss existing and new grade recontouring; method and testing of compaction alleviation; and reseeding program, including location of new seed, seed mix and noxious weed prevention. Attach diagram or drawing. Use additional sheet for description if required.

Based on our observations and the reported laboratory data the Site's Calcium Chloride and Separator pits can be closed with No Further Action pending review by the BLM/COGCC. The security fences can be removed and the pits will be backfilled with material from the Site's berms and other onsite material.

Attach samples and analytical results taken to verify remediation of impacts. Show locations of samples on an onsite schematic or drawing.

Is further site investigation required? ☐ Y ☑ N If yes, describe:

Final disposition of E&P waste (landtreated and disposed onsite, name of licensed disposal facility, recycling, reuse, etc.):

Not Applicable

IMPLEMENTATION SCHEDULE

Date Site Investigation Began: April, 2013	Date Site Investigation Completed: July, 2013	Date Remediation Plan Submitted: N/A
Remediation Start Date: N/A	Anticipated Completion Date: N/A	Actual Completion Date: N/A

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
