Re: Spacing Order 248-3

Patricia,

This letter is to request that the COGCC rescind spacing order 248-3 on the following acreage:

Township 1 North, Range 63 West, 6 th P.M.	
Section 4	East/2
Section 8	All
Section 10	All
Section 11	West/2
Section 15	All

We request that the COGCC to rescind spacing order 248-3 to allow flexibility for future exploration in this area. There is no current production in this acreage block and no exploration has taken place since 1982.

We also request that the COGCC rescind spacing order 248-3 based on the production history in close proximity, as well as current available geological and engineering data concerning said "J Sand", indicating that one well will not efficiently and economically drain an area of 320 acres as previously believed.

In conclusion we request that the COGCC return the above described area as a non spaced unit to encourage future exploration and efficient production of this area.

Sincerely Yours,

Charles N. (Chuck) Griffin,
President
