12. That as to all future Iles wells to be drilled upon the Application Lands within drilling spacing units (granted pursuant to this Application), the well should be located downhole anywhere in the drilling and spacing unit but no closer than 100 feet from the boundaries of the unit without exception being granted by the Director of the Oil and Gas Conservation Commission. It is provided however that in cases where the Application Lands abut or corner lands in respect of which the Commission has not at the time of drilling permit application granted the right to drill 10 acre density Iles wells, the well should be located downhole no closer than 400 feet from the boundary or boundaries of the drilling unit so abutting or cornering such lands without exception being granted by the Director of the Oil and Gas Conservation Commission.

13. That as to the remainder of the described Application Lands [unspaced], the Commission shall order that all future Iles wells should be located downhole anywhere upon the such Application Lands but no closer than 100 feet from the boundaries of any lease line unless such lease line abuts or corners lands in respect of which the Commission has not at the time of drilling permit application granted the right to drill Iles Formation 10 acre density wells in which event the wells should be drilled downhole no closer than 400 feet from the lease line which so abuts or corners the

lands in respect of which 10 acre density downhole drilling for Williams Fork wells has not been ordered by the Commission.

14. That all Iles wells and all Williams Fork wells drilled upon the Application Lands will be drilled from the surface either vertically or directionally from no more than one pad located on a given quarter quarter section unless exception is granted by the Director of the Colorado Oil and Gas Conservation Commission.

15. That the above-proposed spacing and well location rules will allow development of the Iles Formation to occur; will not promote waste; will not violate correlative rights and will assure the greatest ultimate recovery of gas and associated hydrocarbon substances from the reservoir.

16. That the names and addresses of the interested parties according to the information and belief of the Applicant are set forth in Exhibit A attached hereto and made a part hereof.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing in June, 2006, that notice be given as required by law and that upon such hearing this Commission enter its order consistent with Applicant's proposals as set forth above.
