

BEFORE THE OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO

IN THE MATTER OF THE APPLICATION OF)	
ENCANA OIL & GAS (USA) INC. FOR AN)	
ORDER VACATING ORDER NO. 296-1 FOR)	Cause No. 296
THE LOWER ISMAY FORMATION)	Docket No. _____
COVERING CERTAIN LANDS LOCATED IN)	
SAN MIGUEL COUNTY, COLORADO)	

APPLICATION

EnCana Oil & Gas (USA) Inc. ("Applicant"), by and through its undersigned attorneys, respectfully applies to the Oil and Gas Conservation Commission of the State of Colorado (the "Commission") for an order vacating a previous order which established a 640-acre drilling and spacing unit for certain lands in Township 43 North, Range 17 West, N.M.P.M., 6th P.M. for the production of gas from the Lower Ismay formation. In support thereof, Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado.

2. Applicant owns leaseholds interests in the following described lands

Township 43 North, Range 17 West
Section 8: All

San Miguel County, Colorado

hereafter (the "Application Lands").

3. The Application Lands are included within Order No. 296-1 Through such Order entered into on April 15, 1975, this Commission established a 640-acre drilling and spacing unit for production from the Lower Ismay Formation, and established No. 1 Slick Rock Well ("Slick Rock #1"), as the permitted well for said unit, with a location 1650 feet from the south line and 660 feet from the east line of said Section 8.

4. On November 2, 1981, the Slick Rock #1 was completed in the Lower Ismay Formation in the Application lands. The Slick Rock #1 only produced approximately 8854 MCF until it was plugged and abandoned on June 6, 1983. No other wells have been drilled or completed in the Lower Ismay Formation in the Application Lands, or in any formation within Application Lands.

5. Applicant requests the Commission vacate the existing spacing established by Order 296-1 pertaining to the Lower Ismay Formation in the Application Lands. There is presently no producing well in the Application Lands.

6. Vacation of Order No. 296-1 will not result in waste or the drilling of unnecessary wells. Vacation of Order 296-1 will not affect correlative rights of any parties as there has been no production in the Application Lands for over 24 years and because there is no well presently producing in the Application Lands.

7. Vacation of Order No. 296-1 will permit Applicant to drill wells to the Lower Ismay Formation in the Application Lands in accordance with the provisions of Rule 318 of the Rules and Regulations of this Commission.

8. Upon information and belief the names and addresses of the interested parties are set forth on Exhibit A, attached hereto and made a part hereof.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing on the Commission's June 2007 docket and that the Commission enter its Order consistent with the Applicant's request as set forth above.

Respectfully submitted this _____ day of April, 2007.

Respectfully submitted,

ENCANA OIL & GAS (USA) INC.
