OF THE STATE OF COLORADO

IN THE MATTER OF THE AMENDED)	
APPLICATION OF ENCANA OIL & GAS (USA))	
INC. FOR AN ORDER INCREASING WELL)	Cause No.
DENSITY FOR THE WILLIAMS FORK AND THE)	
ILES FORMATIONS OF THE MESAVERDE)	Docket No.
GROUP IN CERTAIN DESCRIBED LANDS IN)	
GARFIELD COUNTY, COLORADO)	

AMENDED APPLICATION

EnCana Oil & Gas (USA) Inc. (“Applicant”), by and through its attorneys, Beatty & Wozniak, P.C., respectfully submits this **Amended** Application to the Oil and Gas Conservation Commission of the State of Colorado (the “Commission”) for an order increasing well density for certain described lands in Garfield County, Colorado and in support of its Application states and alleges as follows:

- 1. Applicant is a corporation duly authorized to conduct business in the State of Colorado.
- 2. Applicant owns leasehold interests in the following described lands:

Township 7 South, Range 93 West, 6th P.M.

Section 8: S/2NW/4, N/2SW/4

Garfield County, Colorado

(hereafter the “Application Lands”).

3. That the Application Lands are unspaced and subject to Rule 318a well location rules of this Commission.

4. That to promote efficient drainage within the Williams Fork and Iles Formations in the Application Lands, the Commission should increase the number of wells which can be optionally drilled into and produced from the Williams Fork and Iles Formations underlying the Application Lands to the equivalent of one Williams Fork Formation **per ten (10) acres with the option to produce the Iles Formation on a one (1) well per twenty (20) acre basis.**

5. All future Williams Fork and Iles wells should be located downhole anywhere upon the Application Lands but no closer than 100 feet from the boundaries of any lease line unless such lease line abuts or corners lands in respect of which the Commission has not at the time of drilling permit application granted the right to drill 10-acre density wells in which event the wells should be drilled downhole no closer than 200 feet from the lease line which so abuts or corners the lands in respect of which 10-acre density downhole drilling for Williams Fork and Iles well has not been ordered by the Commission. Applicant does not intend by this Application to drill more than four (4) Williams Fork and **two (2)** Iles wells downhole per governmental quarter quarter section and no more than one (1) surface pad shall be located on a quarter quarter section.

6. That Applicant has drilled, tested and completed wells in the Williams Fork and Iles Formations of the Mesaverde Group on the lands nearby to Application Lands.

7. That the above-proposed drilling density will allow more efficient and economic drainage of the Williams Fork and Iles Formations of the Mesaverde Group; will prevent waste; will not adversely effect correlative rights and will assure the greatest ultimate recovery of gas and associated hydrocarbon substances from the reservoir.

8. That the names and addresses of the interested parties according to the information and belief of the Applicant are set forth in Exhibit A attached hereto and made a part hereof.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, that notice be given as required by law and that upon such hearing this Commission enter its order consistent with Applicant's proposals as set forth above.

Dated this _____ day of **June**, 2008.

Respectfully submitted,

ENCANA OIL & GAS (USA) INC.
