Hi Lexi,

We discovered a historical release during facility decommissioning activities at Crestone's Pratt 22-29 wellhead. Although this location is not within high priority habitat, it is within 300 feet of a waterway. Do you need to be notified of these in the future? See below details.

Incident Date: 10/14/2024
Operator: Crestone Peak Resources Operating
Location: Pratt 22-29
API #: 05-123-32434
REM #: 35928
County: Weld
Municipality: Erie
Coordinates: 40.028150, -105.035553
Legal: NWNW Sec 29 1N 68W
Description: While conducting facility decommissioning activities at Crestone's Pratt 22-29 wellhead, historical impacts were discovered. The impacted soil will be removed and hauled for disposal. Confirmation soil samples will be collected and submitted in compliance with ECMC Table 915-1. An initial form 19 will be submitted within 72 hours of discovery (10/14/2024).

Thanks,

Costin McQueen
