

BEFORE THE OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO

IN THE MATTER OF THE APPLICATION OF
CONTINENTAL RESOURCES, INC. FOR AN
ORDER ESTABLISHING TWO APPROXIMATE
640 ACRE DRILLING AND SPACING UNIT FOR
THE NIOBRARA FORMATION UNDERLYING
CERTAIN DESCRIBED LANDS IN WELD
COUNTY, COLORADO

CAUSE NO.

DOCKET NO.

APPLICATION

COMES NOW Continental Resources, Inc. ("Applicant"), a Delaware corporation, by its attorneys, Beatty & Wozniak, P.C., and makes application to the Oil and Gas Conservation Commission of the State of Colorado for an order establishing two approximate six hundred forty (640) acre drilling and spacing units for the drilling of horizontal wells in the Niobrara Formation underlying the following described lands in Weld County, Colorado:

Township 9 North, Range 61 West, 6th P.M.
Sections 5 and 8

(hereinafter "Application Lands")

In support of its Application, Applicant avers and states as follows:

1. That Applicant is a corporation duly authorized to conduct business in the State of Colorado.
2. That Applicant owns a leasehold interest in the Niobrara Formation underlying the Application Lands.
3. That the Application Lands currently are not spaced as to the Niobrara Formation and are subject to the Commission's Rule 318 which provides that wells 2,500 feet or deeper shall be located not less than six hundred (600) feet from any lease line and not less than one thousand two hundred (1,200) feet from any other producible or drilling oil or gas well when drilling to the same common source of supply, unless authorized by order of the Commission upon hearing.
4. That based upon geological studies and horizontal drilling of the Niobrara Formation in the same general area of the Application Lands, Applicant asserts that the Niobrara Formation may produce economic volumes of oil when drilled and completed within horizontal wells.
5. That appropriate setbacks for the drilling of a horizontal well within the Niobrara Formation for each section of the Application Lands should be as follows:
 - (a) That the surface location may be located anywhere on the Application Lands.

(b) That the lateral within the Niobrara Formation shall be located no closer than 600 feet from the section line of the Application Lands.

(c). That the lateral within the Niobrara Formation shall be located no closer than 300 feet from any other wellbore on the Application Lands which has penetrated the Niobrara Formation.

8. That the proposed drilling and spacing units will allow more efficient development of the oil and gas resources within the Niobrara Formation, will not promote waste and will not violate correlative rights.

9. That the names and addresses of the interested parties according to the information and belief of the Applicant are set forth in Exhibit A attached hereto.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing in October 2010; that notice be given as required by law and that upon such hearing this Commission enter its order consistent with Applicant's proposals as set forth above.

Dated this _____ day of September, 2010.

BEATTY & WOZNIAK, P.C.
