WEST, WELD COUNTY, COLORADO.)

Cause No. _____

Docket No. _____

APPLICATION

Whiting Oil and Gas Corporation (“Applicant”), by and through its attorneys, Welborn Sullivan Meck & Tooley, P.C., respectfully submits this Application to the Oil and Gas Conservation Commission of the State of Colorado (“Commission”) for an order establishing four 640-acre drilling and spacing units and establishing well location rules applicable to the drilling of wells and producing of oil and gas from the Niobrara Formation covering certain lands in Weld County, Colorado. In support of its Application, Applicant states as follows:

1. Applicant owns leasehold interests in the following lands (“Application Lands”):

Township 9 North, Range 59 West
Section 2: ALL
Section 4: ALL
Section 5: ALL
Section 6: ALL

A reference map of the Application Lands is attached hereto.

2. The Application Lands are subject to Commission Rule 318.a. which provides that a well drilled in excess of 2,500’ in depth shall be located not less than 600’ from any lease line, and shall be located not less than 1,200’ from any other producible or drilling oil or gas well when drilling to the same source of supply, unless authorized by order of the Commission upon hearing. There are no other specific Commission Orders applicable to the Niobrara Formation underlying the Application Lands.

3. The Niobrara Formation in the area of the Application Lands is defined as the stratigraphic equivalent of the interval between 5,770’ (top of the Niobrara) and 6,101’ (base of the Niobrara) as found in the Walker #3 Well located in Township 10 North, Range 5 West, Section 31, Weld County, Colorado. The Niobrara Formation is a common source of supply under the Application Lands.

4. To promote efficient drainage within the Niobrara Formation of the Application Lands, to protect correlative rights and to avoid waste, the Commission should establish drilling and spacing units of approximately 640 acres of the Application Lands.

5. Applicant has drilled, tested and completed wells in the Niobrara Formation upon lands in close proximity to the Application Lands.

6. The above-proposed drilling and spacing unit will allow efficient drainage of the Niobrara Formation, will prevent waste, will not adversely affect correlative rights and will assure the greatest ultimate recovery of gas and associated hydrocarbon substances from the Niobrara formation. The proposed drilling and spacing unit is not smaller than the maximum area that can be economically and efficiently drained by the proposed well in such drilling and spacing

unit. Applicant further maintains that a well drilled in the above-proposed drilling and spacing unit will have no adverse effect on correlative rights of adjacent owners.

7. Applicant is requesting to drill and complete one horizontal well in each 640-acre drilling and spacing unit described above, with the option to drill and complete an additional three wells in each drilling and spacing unit. The Applicant states the proposed horizontal well shall be located on the surface anywhere within the designated drilling and spacing unit with initial perforation of the Niobrara Formation and an ultimate bottomhole location no closer than 600' from the boundaries of the drilling and spacing unit. The Applicant further maintains that the proposed horizontal well will have no adverse effect on correlative rights of adjacent lands owners.

8. The names and addresses of the interested parties according to the information and belief of the Applicant are set forth in Exhibit A attached hereto and made a part hereof, and the undersigned certifies that copies of this Application shall be served on each interested party within the next seven days as required by Rule 503.e.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, that notice be given as required by law and that upon such hearing this Commission enter its order consistent with Applicant's proposals as set forth above.

Dated this 20th day of July, 2011.

Respectfully submitted,

WHITING OIL AND GAS CORPORATION
