Cause No. _____

Docket No. _____

APPLICATION

COMES NOW Anadarko E & P Company LP (referred to herein as "Applicant"), by and through its undersigned attorneys, and makes application to the Oil and Gas Conservation Commission of the State of Colorado ("Commission"), for an order establishing thirty approximate 640 acre drilling and spacing units for the production of oil, gas, and associated hydrocarbons from the Niobrara Formation, such proposed drilling and spacing units described as follows:

Township 4 South, Range 64 West 6th P.M.

Sections 4 through 6: All
Section 8: All
Section 15: All
Section 18: All
Section 19: All
Section 21: All
Section 30: All

Township 4 South, Range 65 West, 6th P.M.

Section 2: All
Section 4: All
Section 6: All
Sections 9 and 10: All
Section 12: All
Sections 14 and 15: All
Sections 17 and 18: All
Sections 20 through 24: All
Section 26: All
Section 28: All

Section 30: All

Township 5 South, Range 64 West, 6th P.M.

Section 29: All

Township 5 South, Range 65 West, 6th P.M.

Sections 24: All

Section 25: All

Arapahoe County, Colorado (“Application Lands”).

In support thereof, the Applicant states and alleges as follows:

1. Applicant is a limited partnership duly authorized to conduct business in the State of Colorado.
2. Applicant owns all or a portion of the leasehold interests in the Application Lands.
3. The Application Lands are unspaced with respect to the Niobrara formation.
4. Applicant requests that the Commission establish each section of the Application Lands as an approximate 640 acre drilling and spacing unit for the Niobrara Formation pursuant to Rule 503.b.(1) Colorado Revised Statute Section 34-60-116(1).
5. Applicant requests that it be authorized to drill one horizontal Niobrara well in each such drilling and spacing unit and have the option to drill one additional Niobrara well on each of said units.
6. Applicant requests the surface location for any horizontal well drilled within a given unit may be located anywhere within the unit or surrounding lands but the lateral of such well may not enter the Niobrara Formation any closer than 300 feet from the section line and that the treated interval within such lateral may not be closer than 460 feet from the section line. Further such treated interval may be no closer than 920 feet from the treated interval of any other well in the unit producing from the Niobrara Formation.
7. Applicant asserts that establishing approximate 640 acre drilling and spacing units for the Application Lands for the Niobrara Formation will allow for economic and efficient drainage of the Niobrara Formation; will prevent waste; will not adversely affect correlative rights and will assure the greatest ultimate recovery of oil and associated hydrocarbon substances from the reservoirs. A 640 acre drilling and spacing unit is not smaller than the maximum area that can be economically and efficiently drained by one horizontal wells in the Niobrara Formation within each such unit.
8. Notice will be provided to the interested parties set forth on Exhibit A pursuant to Rule 503.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, that notice thereof be given as required by law and that upon such hearing this Commission shall enter its order:

A. Establishing each section of the Application Lands as an approximate 640 acre drilling and spacing unit for the Niobrara Formation. One horizontal well shall be authorized to be drilled upon each such unit with an optional additional well also being authorized;

B. The surface location for each well drilled within a given unit may be located anywhere within the unit or adjoining lands; the lateral of a given well may not enter the Niobrara Formation any closer than 300 feet to the section line; the treated interval within the Niobrara Formation may not be located any closer than 460 feet to the section line and the distance between the treated interval of Niobrara wells within a drilling and spacing unit shall not be less than 920 feet;

C. Finding that approximate 640 acre drilling and spacing units for the Niobrara Formation will prevent waste, protect correlative rights, and will maximize the efficient and economic production of the Niobrara Formation on the Application Lands; and

D. Granting any other relief necessary to prevent waste and protect correlative rights of the adjacent owners.

Dated this ____ day of August, 2011.

Respectfully submitted,

ANADARKO E&P COMPANY LP
