APPLICATION

COMES NOW, Chesapeake Exploration, LLC (referred to herein as "Applicant"), by and through its undersigned attorneys, and makes application to the Oil and Gas Conservation Commission of the State of Colorado ("COGCC"), for an order to pool all non-consenting interests for the drilling of a horizontal Niobrara well in Section 22, Township 10 North, Range 68, West, 6th P.M., Weld County, Colorado (hereinafter "Application Lands"). In support of its application, Applicant states and avers as follows:

1. That the Applicant is a corporation duly authorized to conduct business in the State of Colorado.
2. That the Applicant owns certain leasehold interests in the Application Lands.
3. That the Application Lands have been proposed as an approximate 640-acre drilling and spacing unit for the Niobrara Formation pursuant to a concurrently filed companion application seeking a 640-acre drilling and spacing unit for the drilling of a horizontal well. Assuming such unit is established by the COGCC, Applicant has plans to drill upon such drilling and spacing unit the Trevizo 22-10-68 1H Well (hereinafter the "Well"), a horizontal well designed to test and produce oil and associated hydrocarbons from the Niobrara Formation underlying the Application Lands.
4. At least 30 days prior to hearing on this application, Applicant will have sent to affected owners an appropriate AFE (containing the information required under the Commission's Rule 530.a) detailing the estimated costs of drilling of the Well. Applicant anticipates, however, the possibility that one or more of such owners may refuse to participate in the drilling, testing and completion of the well or otherwise did not respond to Applicant's offer to participate.
5. Moreover, that with respect to any owners of unleased mineral interests in the Application Lands, Applicant also will have made reasonable attempts pursuant to COGCC Rule 530.b. to enter into leases with such Owners but, again, anticipates the possibility it may be unsuccessful in such attempts.
6. In order to prevent waste, protect correlative rights and in the best interests of conservation, all interests of parties entitled to participate in the production from the Well (such parties and their addresses being listed in Exhibit "A") should be pooled as to production from the Niobrara Formation in accordance with C.R.S. § 34-60-116 and Rule 530 of the COGCC.

7. That the names and addresses of the interested parties with respect to this Application are as set forth in Exhibit A hereto.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, that notice thereof be given as required by law and that upon such hearing this Commission enter its order pooling all the interests of all parties with rights to participate in production from the Well sand in particular all working interest owners in the Niobrara Formation who have refused to execute Applicant's AFE and otherwise join in the drilling of the Well and all unleased mineral interest owners who have refused to execute a lease covering their mineral interests in the Application Lands, or, alternatively have refused to participate in the costs of drilling the described well and future wells be treated as non-consenting owners under C.R.S. § 34-60-116 and made subject to the terms and penalties provided for therein and for such other findings and orders as the Commission may deem proper or advisable in the premises.

DATED this _____ day of June, 2011.

Respectfully submitted:
