SPACING UNIT LOCATED IN WELD COUNTY,)
COLORADO)

APPLICATION

EOG Resources, Inc. (referred to herein as “Applicant”), by and through its undersigned attorneys, hereby submits this application to the Oil and Gas Conservation Commission of the State of Colorado (“Commission”), for an order to pool all nonconsenting interests for the Critter Creek 20-24H Well in an established 640-acre drilling and spacing unit in the Niobrara Formation consisting of Section 24, Township 11 North, Range 63 West, 6th P.M., Weld County, Colorado. In support thereof, the Applicant states and alleges as follows:

1. That the Applicant is a corporation duly authorized to conduct business in the State of Colorado.
2. That the Applicant owns a majority leasehold interests in the following described lands:

Township 11 North, Range 63 West, 6th P.M.
Section 24: All

Weld County, Colorado,

(hereinafter referred to as the “Application Lands”).
3. On April 29, 2010, the Commission issued Order No. 421-1, which established, among other things, 640-acre drilling and spacing units for the production of oil, gas and associated hydrocarbons from the Niobrara Formation underlying certain lands, including the Application Lands. Order No. 421-1 also established that no more than one (1) horizontal well may be located in each of the units, and established that the surface location for each horizontal well shall be located anywhere upon the drilling and spacing unit, provided that the horizontal leg into the Niobrara Formation shall not be closer than 600 feet to the outside boundary of the drilling unit and the terminus of the horizontal leg shall not be any closer than 600 feet to the outside boundary of the drilling and spacing unit without exception being granted by the Director of the Commission.
4. Applicant, pursuant to Commission Rule 530 and pursuant to the provisions of C.R.S. § 34-60-116 (6) and (7), seeks an order to pool all nonconsenting interest owners in a 640-acre drilling and spacing unit for the development and operation of the Niobrara Formation on the Application Lands.
5. Applicant has horizontally drilled the Critter Creek 20-24H Well within the 640-acre drilling and spacing unit on the Application Lands. A plat showing the location of the Critter Creek 20-24H Well is attached. The surface location of the Critter Creek 20-24H Well is 501’ FNL and 501’ FWL in Section 24, Township 11 North, Range 63 West. The bottomhole location is 600’ FSL and 1970’ FEL of Section 23, Township 11 North, Range 63 West.
6. Applicant holds an approved Application for Permit to Drill for the Critter Creek 20-24H Well.
7. Applicant requests that the Commission’s involuntary pooling order issued with respect to this Application be retroactive to the date of spudding of the Critter Creek 20-24H Well, which is November 30, 2010.
8. Exhibit A attached hereto lists the unleased mineral interest owners in the 640-acre drilling and spacing unit together with their addresses. The unleased mineral owner (not otherwise

voluntarily pooled) was mailed an Authority for Expenditure ("AFE") and was offered an opportunity to participate in the drilling of the Critter Creek 20-24H Well. To date, however, such owner has not elected to participate by agreeing to bear its proportionate shares of the costs and risks of drilling, completing and operating the well. In addition, Applicant has made an offer to lease to the unleased mineral interest owner (not otherwise voluntarily pooled) as required by Commission Rule 530.c. and C.R.S. §34-60-116(7)(d). To date, however, the unleased mineral owner has not accepted such offer. The AFE, offer to participate in drilling and the offer to lease were sent to the unleased mineral interest owner more than thirty (30) days prior to the date of the hearing on this Application.

9. With respect to the owners who have not elected to participate, in order to prevent waste, protect correlative rights and in the best interests of conservation, all interests owned by the nonconsenting parties listed on Exhibit A should be pooled in the Niobrara Formation in accordance with C.R.S. §34-60-116 and Commission Rule 530.

10. That the names and addresses of the interested parties with respect to this Application are set forth in Exhibit A hereto and notice of this Application has been provided to those parties entitled to the same pursuant to Commission Rule 507.b.(2).

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, that notice thereof be given as required by law and that upon such hearing this Commission enter its order:

A. Pooling involuntarily the interest owners listed on Exhibit A with whom Applicant has been unable to secure a lease or an agreement for the drilling of the Critter Creek 20-24H Well as described in Paragraph 5 and that such owner be treated as a non-consenting owner under C.R.S. §34-60-116 and made subject to the terms and penalties provided for therein.

B. Establishing that all interest owners in the 640-acre drilling and spacing unit which are not voluntarily pooled in the 640-acre drilling and spacing unit be involuntarily pooled.

C. Establishing that the effective date of the Commission's involuntary pooling order will be made retroactive to the date of spudding of the Critter Creek 20-24H Well, which is November 30, 2010.

D. For such other findings and orders as the Commission may deem proper or advisable in the premises.

Dated this ___ day of February, 2011.

Respectfully submitted,

EOG RESOURCES, INC.
