FORMATIONS IN A DESIGNATED )  
WELLBORE SPACING UNIT LOCATED IN )  
THE WATTENBERG FIELD, WELD COUNTY, )  
COLORADO

Cause No. \_\_\_\_\_

Docket No. \_\_\_\_\_

APPLICATION

COMES NOW Kerr-McGee Oil & Gas Onshore LP (referred to herein as "Applicant"), by and through its undersigned attorneys, and makes application to the Colorado Oil and Gas Conservation Commission ("Commission"), for an order to pool all interests within a 160-acre designated wellbore spacing unit for the drilling of a well to produce oil, gas, and associated hydrocarbons from the Codell, Niobrara and J Sand Formations located in the following described lands for the Overlook 28-30 Well:

Township 2 North, Range 67 West, 6<sup>th</sup> P.M.

Section 19: SE $\frac{1}{4}$ SW $\frac{1}{4}$ , SW $\frac{1}{4}$ SE $\frac{1}{4}$

Section 30: NE $\frac{1}{4}$ NW $\frac{1}{4}$ , NW $\frac{1}{4}$ NE $\frac{1}{4}$

Weld County, Colorado ("the Application Lands").

In support thereof, the Applicant states and alleges as follows:

1. Applicant is a limited partnership formed under the laws of the State of Delaware; is a wholly owned subsidiary of Anadarko Petroleum Corporation; is duly authorized to conduct business in the State of Colorado; and is a registered operator in good standing with the Commission.

2. Applicant owns certain interests in the Application Lands.

3. On February 19, 1992, the Commission issued Order No. 407-87 (amended August 20, 1993), which among other things, established 80-acre drilling and spacing units for the production of oil and/or gas from the Codell and Niobrara Formations underlying certain lands, including the Application Lands, with the permitted well locations in accordance with the provisions of Order No. 407-1. Order No. 407-1 (amended on March 29, 2000 in accordance with Order No. 407-17, entered November 18, 1985), among other things, established 80-acre drilling and spacing units for the production of oil and/or gas and associated hydrocarbons from the Codell Formation underlying certain lands, including the Application Lands, with the drilling and spacing unit to be designated by the operator drilling the first well in the quarter section, (or the

Director, if the operator fails to designate). The permitted well shall be located in the center of either 40-acre tract within the drilling and spacing unit with a tolerance of 200 feet in any direction. The operator shall have the option to drill an additional well on the undrilled 40-acre tract in each 80-acre drilling and spacing unit.

4. On October 19, 1981, the Commission issued Order No. 232-23 which, among other things, established 320-acre drilling and spacing units for the production of gas and associated hydrocarbons from the J Sand Formation underlying certain lands, including the Application Lands, and allowed up to two (2) wells to be drilled within each 320-acre drilling and spacing unit.

5. On April 27, 1998, the Commission adopted Rule 318A, which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all of the Cretaceous Age Formation from the base of the Dakota Formation to the surface. On December 5, 2005, Rule 318A was amended to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. The Application Lands are subject to this Rule for the Codell, Niobrara, and J Sand Formations.

6. Applicant designated a 160-acre wellbore spacing unit upon the Application Lands for the production of oil, gas, and associated hydrocarbons from the Codell, Niobrara, and J Sand Formations pursuant to Rule 318A.e. and notified all owners in the proposed wellbore spacing unit pursuant to Rule 318A.e.(6). Applicant did not receive any objections to the establishment of the proposed wellbore spacing unit within the 30-day response period, and, as such, certifies to the Commission that it did not receive any objections to the well location, proposed spacing unit, or proposed formations.

7. Applicant, pursuant to the provisions of C.R.S. § 34-60-116 (6) & (7) and Commission Rule 530, seeks an order pooling all interests, including, but not limited to, any nonconsenting interests, in the Application Lands and wellbore spacing unit for the development of the Codell, Niobrara and J Sand Formations, said order to apply to the currently-allowed well and any subsequent well drilled in the unit.

8. Applicant requests that the Commission's pooling order be made effective as of the earlier of the date of this Application, or the date that the costs specified in C.R.S. § 34-60-116(7)(b)(II) are first incurred for the drilling of the well to the Codell, Niobrara and/or J Sand Formations on the Application Lands.

9. Applicant certifies that copies of this Application will be served on all persons owning an interest in the mineral estate of the tracts to be pooled within seven (7) days of the date hereof, as required by Rule 507.b(2), and that at least thirty (30) days prior to the hearing on this matter, each such interest owner not already leased or voluntarily pooled will be offered the opportunity to lease, or to participate in the drilling of the well, and will be provided with the information required by Rule 530. The list of such interested parties is attached hereto as Exhibit A.

10. That in order to prevent waste and to protect correlative rights, all interests in the Application Lands and the designated 160-acre wellbore spacing unit should be pooled for the orderly development of the Codell, Niobrara, and J Sand Formations, including any nonconsenting interests therein.

WHEREFORE, Applicant requests that this matter be set for hearing at the next available opportunity, that notice be given as required by law, and that upon such hearing, the Commission enter its order:

A. Pooling all interests in the Application Lands and wellbore spacing unit for the development of the Codell, Niobrara, and J Sand Formations, including the currently-allowed well and all subsequent wells.

B. Providing that the Commission's pooling order is made effective as of the earlier of the date of this Application, or the date that the costs specified in C.R.S. § 34-60-116(7)(b)(II) are first incurred for the drilling of a well to the Codell, Niobrara, and/or J Sand Formations on the Application Lands.

C. Providing that the interests of any owners with whom the Applicant has been unable to secure a lease or other agreement to participate in the drilling of the authorized well are pooled by operation of statute, pursuant to C.R.S. § 34-60-116(7), and made subject to the cost recovery provisions thereof with respect to all wells drilled to develop the Codell, Niobrara, and J Sand Formations in the wellbore spacing unit comprised of the Application Lands.

D. For such other findings and orders as the Commission may deem proper or advisable in this matter.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing in April 2012, that notice be given as required by law, and that upon such hearing, the Commission enter its order consistent with Applicant's request as set forth above.

DATED this \_\_\_ day of February, 2012.

Respectfully submitted,

**KERR-MCGEE OIL & GAS ONSHORE LP**
