OF CERTAIN LANDS IN THE BUZZARD FIELD)	DOCKET NO. 1204-UP-_____

VERIFIED APPLICATION

COMES NOW Laramie Energy II, LLC ("Applicant"), by its attorneys, Lohf Shaiman Jacobs Hyman & Feiger PC, and submits its verified application to the Oil and Gas Conservation Commission of the State of Colorado, for an order pooling all non-consenting owners in certain lands in the Buzzard Field Area, Mesa County, Colorado, and in support of its application states as follows.

1. Applicant is duly organized and authorized to conduct business in the State of Colorado.

2. Applicant owns leasehold interests in the following described lands in Mesa County, Colorado, containing approximately 160 acres (hereinafter, the "Application Lands"):

Township 9 South, Range 93 West, 6th P.M.
Section 17: SW1/4

3. By Order entered January 23, 2012, the Commission established the Application Lands as an approximately 160-acre drilling and spacing unit for the Williams Fork and Isles Formations of the Mesaverde Group, and the Mancos, Niobrara, Frontier and Mowry Formations (the "Deep Formations") in the Application Lands, for production of oil, gas and associated hydrocarbons.

4. Applicant desires to drill the Jensen 17-13B well on the Application Lands to one or more of such Formations.

5. At least 30 days prior to the hearing on this application, the Applicant will have sent all owners listed on **Exhibit A**, who have not previously consented to lease or otherwise participate in the Jensen 17-13B well, an Authority for Expenditures (AFE) containing all information required under Commission Rule 530.b., and in case of unleased mineral owners, an offer to lease which is reasonable, based on the factors listed in Commission Rule 530.c.

6. Applicant anticipates that one or more of such owners will refuse or fail to respond to such offer to participate in the drilling, completion and operation of such well, and shall be deemed non-consenting parties under Commission Rule 530.b and c.

7. An order of the Commission pooling all non-consenting interests in an approximately 160 acre unit composed of the Application Lands shall therefore be necessary in order to afford

each owner of an interest in such unit the opportunity to recover and receive its just and equitable share of the oil and/or gas from the common source of supply underlying said unit.

8. The granting of the requested order would not be prejudicial to the owners in the unit and would protect correlative rights.

9. The requested pooling order should be effective as of the date of this Application, or the date that costs specified by C.R.S. §34-60-116(7)(b) are first incurred by Applicant for the drilling of the Jensen 17-13B well, whichever is first in time.

10. The names and addresses of the interested parties according to the information and belief of the Applicant are set forth on **Exhibit A** attached hereto and made a part hereof.

WHEREFORE, Applicant, Laramie Energy II, LLC, respectfully requests that this matter be set for hearing in April 16 or 17, 2012, that notice be given as required by law and upon such hearing this Commission enter its order pooling all non-consenting interests in said unit for production from the Williams Fork and Iles Formations of the Mesaverde Group, and the Deep Formations, under such terms as are fair, reasonable and required by law.

Dated: February 16, 2012.
