SPACING UNIT LOCATED IN THE WATTENBERG)	
FIELD, WELD COUNTY, COLORADO.)	

APPLICATION

COMES NOW Noble Energy, Inc. (referred to herein as "Applicant"), by and through its undersigned attorneys, and makes application to the Colorado Oil and Gas Conservation Commission ("Commission"), for an order to pool all interests within an 80-acre drilling and spacing unit for the Codell-Niobrara Formation for the drilling of the Walcker AB12-12 well ("Well") to produce from the Codell-Niobrara Formation located in the following lands:

Township 7 North, Range 64 West, 6th P.M
Section 12: W½SW¼

Weld County, Colorado (the "Application Lands").

In support thereof, the Applicant states and alleges as follows:

In support of its application, Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado, and is a registered operator in good standing with the Commission.
2. Applicant owns leasehold interests in a substantial portion of the Application Lands.
3. The Application Lands are subject to Commission Rule 318.a. which provides that a well to be drilled in excess of two thousand five hundred (2,500) feet in depth shall be located not less than six hundred (600) feet from any lease line, and shall be located not less than one thousand two hundred (1,200) feet from any other producible or drilling oil or gas well when drilling to the same source of supply, unless authorized by order of the Commission upon hearing.
4. On April 27, 1998, the Commission adopted Rule 318A, which, among other things, established drilling windows and allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recompleat a well and to commingle any or all of the Cretaceous Age Formation from the base of the Dakota Formation to the surface. Rule 318A (a)(4)(C) allows an operator to designate a drilling and spacing unit not smaller than

a governmental quarter-quarter section if the well is proposed to be located greater than four hundred and sixty (460) feet from the quarter quarter section boundary in which it is located. The Application Lands are subject to Rule 318A. Pursuant to Rule 318A.k., Rule 318A supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of GWA wells.

5. Applicant has filed an application requesting an 80-acre drilling and spacing unit to be established for the Application Lands concurrently with this Application.

6. Applicant, pursuant to the provisions of C.R.S. § 34-60-116 (6) & (7) and Commission Rule 530, seeks an order pooling all interests, including, but not limited to, any nonconsenting interests, in the Application Lands consisting of the 80-acre drilling and spacing unit for the development of the Codell-Niobrara Formation, said order to apply to the currently-allowed Well and any subsequent well drilled in the unit.

7. Applicant requests that the Commission's pooling order be made effective as of the earlier of the date of this Application, or the date that the costs specified in C.R.S. § 34-60-116(7)(b)(II) are first incurred for the drilling of the Well to the Codell-Niobrara Formation on the Application Lands.

8. Applicant certifies that copies of this Application will be served on all persons owning an interest in the mineral estate of the tracts to be pooled within seven (7) days of the date hereof, as required by Rule 507.b(2), and that at least thirty (30) days prior to the hearing on this matter, each such interest owner not already leased or voluntarily pooled will be offered the opportunity to lease, or to participate in the drilling of the well, and will be provided with the information required by Rule 530. The list of such interested parties is attached hereto as Exhibit A.

9. That in order to prevent waste and to protect correlative rights, all interests in the Application Lands and the requested 80-acre drilling and spacing unit for the Codell-Niobrara Formation should be pooled for the orderly development of the formation, including any nonconsenting interests therein.

WHEREFORE, Applicant requests that this matter be set for hearing at the next available opportunity, that notice be given as required by law, and that upon such hearing, the Commission enter its order:

A. Pooling all interests in the Application Lands and the requested 80-acre drilling and spacing unit for the development of the Codell-Niobrara Formation, including the currently-allowed well and all subsequent wells.

B. Providing that the Commission's pooling order is made effective as of the earlier of the date of this Application, or the date that the costs specified in C.R.S. § 34-60-116(7)(b)(II) are first incurred for the drilling of the Well to the Codell-Niobrara Formation on the Application Lands.

C. Providing that the interests of any owners with whom the Applicant has been unable to secure a lease or other agreement to participate in the drilling of the authorized Well are pooled by operation of statute, pursuant to C.R.S. § 34-60-116(7), and made subject to the cost recovery provisions thereof with respect to all wells drilled to develop the Codell-Niobrara Formation in the requested 80-acre drilling and spacing unit comprising the Application Lands.

D. For such other findings and orders as the Commission may deem proper or advisable in this matter.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing in April, 2012, notice be given as required by law, and that upon such hearing, the Commission enter its order consistent with Applicant's request as set forth above.

Dated: February ____, 2012

Respectfully submitted:
