Carrizo Oil & Gas, Inc. In support of its Application, Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado, and has registered as an operator with the Commission.

2. Applicant owns substantial leasehold interests in the below-listed lands:

Township 3 South, Range 64 West, 6th P.M.
Section 8: All

These lands are hereinafter referred to as the "Application Lands."

3. The Application Lands are unspaced with respect to the Niobrara Formation, which is a common source of supply underlying said lands and, as such, Rule 318.a. applies to said lands and under said rule, wells greater than 2,500 feet in depth shall be located not less than 600 feet from any lease line, and shall not be located less than 1,200 feet from any other producible or drilling well when drilling to the same common source of supply, unless authorized by order of the Commission upon hearing.

4. Applicant requests an order establishing an approximate 640-acre drilling and spacing unit for the Application Lands, and the authority to drill up to two (2) horizontal wells within the proposed unit, for the production of oil, gas and associated hydrocarbons from the Niobrara Formation, with the treated interval of the wellbore to be no closer than 600 feet from the proposed unit boundaries and no closer than 1,200 feet from the treated interval of any other wellbore located in the proposed unit and completed in the Niobrara Formation, without exception being granted by the Director.

5. That in order to promote efficient drainage of the Niobrara Formation underlying the Application Lands, to prevent waste, and to protect correlative rights, the Commission should establish the approximate 640-acre drilling and spacing unit requested herein for the drilling and completion of up to two (2) horizontal wells within the unit. The requested drilling and spacing unit for the Application Lands is not smaller than the maximum area that can be economically and efficiently drained by one well.
