

BEFORE THE OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO

IN THE MATTER OF THE APPLICATION OF)	Cause No.
CARRIZO OIL AND GAS, INC., FOR AN)	
ORDER ALLOWING UP TO SIX)	Docket No.
HORIZONTAL WELLS IN A 1280-ACRE)	
DRILLING AND SPACING UNIT FOR THE)	
NIOBRARA FORMATION IN SECTIONS 29)	
AND 32, TOWNSHIP 8 NORTH, RANGE 61)	
WEST IN WELD COUNTY, COLORADO)	

APPLICATION

Carrizo Oil and Gas, Inc. ("Applicant"), by and through its attorneys, Beatty & Wozniak, P.C., respectfully submits this Application to the Oil and Gas Conservation Commission of the State of Colorado (the "Commission") for an order authorizing up to six horizontal wells in the following-described 1280-acre drilling and spacing unit:

Township 8 North, Range 61 West, 6th P.M.
Section 29: All
Section 32: All

Weld County, Colorado ("Application Lands").

and further providing that the treated interval of each horizontal wellbore may be separated by a minimum of 600 feet for the production of oil, gas and associated hydrocarbons from the Niobrara Formation.

In support of its Application, Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado and is an operator in good standing with the Commission.
2. Applicant owns substantial leasehold interests in the Application Lands.
3. Sections 29 and 32, Township 8 North, Range 61 West, are each currently spaced as distinct 640-acre drilling and spacing units. Together, they comprise a proposed 1280-acre drilling and spacing unit for development of the Niobrara Formation. The application for the proposed 1280-acre drilling and spacing unit is scheduled to be heard at the November 15, 2012 Commission Hearing, Docket No. 1211-SP-147. Approval of the current application for increased density is contingent upon Commission approval of said pending application for a 1280-acre drilling and spacing unit.
4. On February 22, 2011, the Commission issued Order No. 535-3, which among other things, established 160 approximate 640-acre drilling and spacing units, for the production of oil, gas and associated hydrocarbons from the Niobrara Formation underlying certain lands, including Section 29, Township 8 North, Range 61 West, and allowed one horizontal well in each unit.

5. On September 19, 2011, the Commission entered Order No. 535-69 which, among other things, established 40 approximate 640-acre drilling and spacing units for certain lands, including Section 32, Township 8 North, Range 61 West, and approved two horizontal wells within each unit for the production of oil, gas, and associated hydrocarbons from the Niobrara Formation.

6. Applicant requests that up to six horizontal wells be authorized for production of oil, gas and associated hydrocarbons from the Niobrara Formation in the Application Lands.

7. In accordance with Rule 318, Applicant will locate and drill the wells so that the treated interval of the horizontal wells is no closer than 600 feet from the boundaries of the units. Applicant requests that the 1,200 foot internal wellbore setback of Rule 318 be relaxed so that the treated interval of the horizontal wells may be separated by a minimum of 600 feet.

8. Applicant asserts that additional wells are necessary to prevent waste, protect correlative rights, and to assure the maximum efficient recovery of oil, gas and associated hydrocarbons from the Niobrara Formation on the Application Lands.

9. The names and addresses of the interested parties to this Application are set forth in Exhibit A, and the undersigned certifies that copies of this Application shall be served on each interested party as required by Rule 503.e.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, notice be given as required by law and that upon such hearing this Commission enter its order:

A. Authorizing up to six horizontal wells in the Application Lands for production of oil, gas and associated hydrocarbons from the Niobrara Formation.

B. Providing that said wells shall be located and drilled so that the treated interval of the wellbores are no closer than 600 feet from the boundaries of the unit and are separated by a minimum of 600 feet.

C. For such other findings and orders as the Commission may deem proper or advisable in the matter.
