APPLICATION

COMES NOW Encana Oil & Gas (USA) Inc. ("Applicant"), by its attorneys, Beatty & Wozniak, P.C., and makes application to the Oil and Gas Conservation Commission of the State of Colorado ("Commission") for an order pooling all interests in the following-described 160-acre wellbore spacing unit for the development of the Codell, Niobrara, and J Sand Formations for the Peppler Farms 6-4-4 Well, API No. 05-123-34620 ("Well"):

Township 3 North, Range 68 West, 6th P.M.
Section 4: S $\frac{1}{2}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$

Weld County, Colorado

(hereinafter "Application Lands").

In support of its application, Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado, and is a registered operator in good standing with the Commission.
2. Applicant owns leasehold interests in a substantial portion of the Application Lands.
3. On October 19, 1981, the Commission issued Order No. 232-23 which, among other things, established 320-acre drilling and spacing units for the production of gas and associated hydrocarbons from the J Sand Formation underlying certain lands, and allowed up to two (2) wells to be drilled within each 320-acre drilling and spacing unit. Section 4, Township 3 North, Range 68 West is subject to this Order for the J Sand Formation.
4. On February 19, 1992, the Commission issued Order No. 407-87 (amended August 20, 1993), which among other things, established 80-acre drilling and spacing units for the production of oil and/or gas from the Codell and Niobrara Formations underlying certain lands, with the permitted well locations in accordance with the provisions of Order No. 407-1. Section 4, Township 3 North, Range 68 West is subject to this Order for the Codell and Niobrara Formations.
5. On April 27, 1998, the Commission adopted Rule 318A, which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all of the Cretaceous Age Formation from the base of the Dakota Formation to the surface. On December 5, 2005, Rule 318A was amended to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was

again amended to address, among other things, the drilling of horizontal wells. The Application Lands are subject to Rule 318A for the Codell, Niobrara, and J Sand Formations.

6. Applicant designated a 160-acre wellbore spacing unit within the Application Lands, as described below, for the production of oil, gas, and associated hydrocarbons from the Codell, Niobrara and J Sand Formations pursuant to Rule 318A. and notified the appropriate parties under Rule 318A.

7. Applicant, pursuant to Commission Rule 530 and the provisions of C.R.S. §34-60-116 (6) and (7), seeks an order to pool all interests, including but not limited to, any nonconsenting interests, and in the following designated 160-acre wellbore spacing unit, located within the Application lands, for production from the Codell, Niobrara and J Sand Formations:

Township 3 North, Range 68 West, 6th P.M.
Section 4: S½NE¼, N½SE¼

(hereafter "Wellbore Spacing Unit").

8. Applicant requests that the Commission's pooling order be made effective as of the earlier of the date of this Application, or the date that the costs specified in C.R.S. § 34-60-116(7)(b)(II) are first incurred for the drilling of the Well to the Codell, Niobrara, and/or J Sand Formations on the Application Lands.

9. Applicant certifies that copies of this Application will be served on all persons owning an interest in the mineral estate of the tracts to be pooled within seven (7) days of the date hereof, as required by Rule 507.b(2), and that at least thirty (30) days prior to the hearing on this matter, each such interest owner not already leased or voluntarily pooled will be offered the opportunity to lease, or to participate in the drilling of the well, and will be provided with the information required by Rule 530. The list of such interested parties is attached hereto as Exhibit A.

10. That in order to prevent waste and to protect correlative rights, all interests in the Application Lands and the Wellbore Spacing Unit should be pooled for the orderly development of the Codell, Niobrara, and J Sand Formations, including any nonconsenting interests therein.

WHEREFORE, Applicant requests that this matter be set for hearing at the next available opportunity, that notice be given as required by law, and that upon such hearing, the Commission enter its order:

A. Pooling all interests in the Application Lands and Wellbore Spacing Unit for the development of the Codell, Niobrara and J Sand Formations.

B. Providing that the Commission's pooling order is made effective as of the earlier of the date of this Application, or the date that the costs specified in C.R.S. § 34-60-116(7)(b)(II) are first incurred for the drilling of the Well to the Codell, Niobrara, and/or J Sand Formations on the Application Lands.

C. Providing that the interests of any owners with whom the Applicant has been unable to secure a lease or other agreement to participate in the drilling of the authorized well are pooled by operation of statute, pursuant to C.R.S. § 34-60-116(7), and made subject to the cost recovery

provisions thereof with respect to all wells drilled to develop the Codell, Niobrara, and J Sand Formations in the 160-acre wellbore spacing unit comprised of the Application Lands.

D. For such other findings and orders as the Commission may deem proper or advisable in this matter.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing in March, 2013, notice be given as required by law, and that upon such hearing, the Commission enter its order consistent with Applicant's request as set forth above.
