TOWNSHIP 7 NORTH, RANGE 62 WEST IN	)	
WELD COUNTY, COLORADO	)	

APPLICATION

Continental Resources, Inc. ("Applicant"), by and through its attorneys, Beatty & Wozniak, P.C., respectfully submits this Application to the Oil and Gas Conservation Commission of the State of Colorado (the "Commission") for an order authorizing up to two horizontal wells in the following-described 640-acre drilling and spacing unit:

Township 7 North, Range 62 West, 6<sup>th</sup> P.M.  
Section 4: All

Weld County, Colorado (together the "Application Lands"),

and further providing that the treated interval of each horizontal wellbore may be separated by a minimum of 600 feet for the production of oil, gas and associated hydrocarbons from the Niobrara Formation.

In support of its Application, Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado and is an operator in good standing with the Commission.
2. Applicant owns substantial leasehold interests in the Application Lands.
3. On August 8, 2011, the Commission entered Order No. 535-51, which, among other things, established a 640-acre drilling and spacing units for certain lands, including the Application Lands, and allowed the drilling of one horizontal well within each drilling and spacing unit, for the production of oil, gas and associated hydrocarbons from the Niobrara Formation.
4. Applicant requests that up to two horizontal wells be authorized for production of oil, gas and associated hydrocarbons from the Niobrara Formation in the Application Lands.

5. In accordance with Rule 318, Applicant will locate and drill the wells so that the treated interval of the horizontal wells is no closer than 600 feet from the boundaries of the units. Applicant requests that the 1,200 foot internal wellbore setback of Rule 318 be relaxed so that the treated interval of the horizontal wells may be separated by a minimum of 600 feet.

6. Applicant asserts that additional wells are necessary to prevent waste, protect correlative rights, and to assure the maximum efficient recovery of oil, gas and associated hydrocarbons from the Niobrara Formation on the Application Lands.

7. The undersigned certifies that copies of this Application shall be served on each interested party within 7 days as required by Rule 503.e.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, notice be given as required by law and that upon such hearing this Commission enter its order:

A. Authorizing up to two horizontal wells in the Application Lands for production of oil, gas and associated hydrocarbons from the Niobrara Formation.

B. Providing that said wells shall be located and drilled so that the treated interval of the wellbores are no closer than 600 feet from the boundaries of the unit and are separated by a minimum of 600 feet.

C. For such other findings and orders as the Commission may deem proper or advisable in the matter.
