

BEFORE THE OIL AND GAS CONSERVATION COMMISSION  
OF THE STATE OF COLORADO

IN THE MATTER OF THE APPLICATION OF )	
CARRIZO OIL AND GAS, INC., FOR AN )	
ORDER ALLOWING UP TO THIRTEEN )	Cause No.
HORIZONTAL WELLS IN AN ESTABLISHED )	
640-ACRE DRILLING UNIT LOCATED IN )	Docket No.
SECTION 2, TOWNSHIP 8 NORTH, RANGE )	
61 WEST IN WELD COUNTY, COLORADO )	

APPLICATION

Carrizo Oil and Gas, Inc. ("Applicant"), by and through its attorneys, Beatty & Wozniak, P.C., respectfully submits this Application to the Oil and Gas Conservation Commission of the State of Colorado (the "Commission") for an order authorizing up to thirteen horizontal wells in the following-described lands:

Township 8 North, Range 61 West, 6<sup>th</sup> P.M.  
Section 2: All

Weld County, Colorado (the "Application Lands").

In support of its Application, Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado and is an operator in good standing with the Commission.
2. Applicant owns substantial leasehold interests in the Application Lands. A well location map of the Application Lands is attached as Exhibit A.
3. On February 22, 2012 the Commission issued Order No. 535-3 which, among other things, established 164 approximate 640-acre drilling and spacing units for certain lands, including the Application Lands, and allowed one horizontal well in each unit, for the production of oil, gas and associated hydrocarbons from the Niobrara Formation.
4. On November 15, 2012, the Commission issued Order No. 535-215 which, among other things, approve up to two horizontal wells within approximate 640-acre drilling and spacing units located in certain lands, including the Application Lands, for the production of oil, gas and associated hydrocarbons from the Niobrara Formation.
5. On March 25, 2013, the Commission issued Order No. 535-295 which, among other things approved up to a total of six horizontal wells within approximate 640-acre drilling and spacing units located in certain lands, including the Application Lands, for the production of oil, gas and associated hydrocarbons from the Niobrara Formation.
6. Applicant requests approval to drill, at its option, an additional seven horizontal wells, for a total of up to thirteen horizontal wells in the unit, with internal wellbores offset by 300 feet and unit boundary setbacks of 600 feet, except that 100 foot "heel-and-toe" completed interval

setbacks from the unit boundaries perpendicular to the well laterals shall apply so long as Applicant obtains exception location approvals pursuant to Rule 318.c. This exception location requirement for reduced unit boundary setbacks shall not apply if superseded by a subsequent Commission rule or area-wide order.

7. Applicant asserts that the requested wells are necessary to prevent waste, protect correlative rights, and to assure the maximum efficient recovery of oil, gas and associated hydrocarbons from the Niobrara Formation on the Application Lands.

8. That in order to promote efficient drainage of the Niobrara Formation underlying the application lands, to prevent waste, and to protect correlative rights, the Commission should allow the drilling of an additional seven, for a total of up to thirteen horizontal wells in said unit. The specified size and configuration of the requested drilling unit is not smaller than the maximum area that can be economically and efficiently drained by the requested well(s).

9. The names and addresses of the interested parties to this Application which include, as appropriate, offset operators, lessees, or mineral owners, are set forth in Exhibit B, and the undersigned certifies that copies of this Application shall be served on each interested party as required by Rule 503.e.

10. Applicant agrees to be bound by the oral order of the Commission.

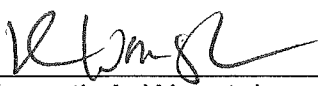

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, notice be given as required by law and that upon such hearing this Commission enter its order:

A. Providing that Applicant may drill, at its option, an additional seven for a total of up to thirteen horizontal wells in the unit, with internal wellbores offset by 300 feet and unit boundary setbacks of 600 feet, except that 100 foot "heel-and-toe" completed interval setbacks from the unit boundaries perpendicular to the well laterals shall apply so long as Applicant obtains exception location approvals pursuant to Rule 318.c.

B. Providing that the exception location requirement for reduced unit boundary setbacks set forth in this Application shall not apply if superseded by a subsequent Commission rule or area-wide order.

C. For such other findings and orders as the Commission may deem proper or advisable in the matter.
