CARRIZO OIL AND GAS, INC., FOR AN)
ORDER ALLOWING UP TO SIXTEEN) Cause No.
HORIZONTAL WELLS IN AN ESTABLISHED)
640-ACRE DRILLING AND SPACING UNIT) Docket No.
LOCATED IN SECTION 14, TOWNSHIP 8)
NORTH, RANGE 60 WEST, 6TH P.M., IN)
WELD COUNTY, COLORADO)

APPLICATION

Carrizo Oil and Gas, Inc. ("Applicant"), by and through its attorneys, Beatty & Wozniak, P.C., respectfully submits this Application to the Oil and Gas Conservation Commission of the State of Colorado (the "Commission") for an order authorizing up to sixteen horizontal wells in the following-described lands:

Township 8 North, Range 60 West, 6th P.M.
Section 14: All

Weld County, Colorado (the "Application Lands").

In support of its Application, Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado, and is an operator in good standing with the Commission.
2. Applicant owns substantial leasehold interests in the Application Lands. A well location map of the Application Lands is attached as Exhibit A.
3. On September 19, 2011, the Commission entered Order No. 535-69 which, among other things, established 40 approximate 640-acre drilling and spacing units for certain lands, including the Application Lands, and approved two horizontal wells within each unit, for the production of gas and associated hydrocarbons from the Niobrara Formation.
4. On July 29, 2013, the Commission entered Order No. 535-391 which, among other things pooled all interests within an approximate 640-acre drilling and spacing unit established for the Application Lands, for the development and operation of the Niobrara Formation.
5. Applicant requests approval to drill, at its option, an additional 14 horizontal wells, for a total of up to 16 horizontal wells in the Application Lands, with internal wellbores offset by 300 feet and unit boundary setbacks of 300 feet.
6. Applicant asserts that the requested wells are necessary to prevent waste, protect correlative rights, and to assure the maximum efficient recovery of oil, gas and associated hydrocarbons from the Niobrara Formation on the Application Lands.

7. That in order to promote efficient drainage of the Niobrara Formation underlying the Application Lands, to prevent waste, and to protect correlative rights, the Commission should allow the drilling of an additional 14, for a total of up to 16 horizontal wells in said drilling and spacing unit. The specified size and configuration of the requested drilling unit is not smaller than the maximum area that can be economically and efficiently drained by the requested well(s).

8. According to Rule 507.b.(1), the names and addresses of the interested parties to this Application are set forth in Exhibit B, and the undersigned certifies that copies of this Application shall be served on each interested party as required by Rule 503.e.

9. Applicant agrees to be bound by the oral order of the Commission.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, notice be given as required by law and that upon such hearing this Commission enter its order:

A. Providing that Applicant may drill, at its option, an additional 14 for a total of up to 16 horizontal wells in the unit, with internal wellbores offset by 300 feet and unit boundary setbacks of 300 feet.

B. For such other findings and orders as the Commission may deem proper or advisable in the matter.

Dated: August 29th, 2013.
