

BEFORE THE OIL & GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO

IN THE MATTER OF THE APPLICATION OF)
XTO ENERGY INC. FOR AN ORDER)
APPROVING UP TO FOUR WELLS IN)
ESTABLISHED 320-ACRE DRILLING AND)
SPACING UNITS IN LOCATED SECTIONS 5)
AND 8, TOWNSHIP 32 NORTH, RANGE 6)
WEST, N.M.P.M., IN THE FRUITLAND COAL)
SEAM FORMATION, IGNACIO-BLANCO)
FIELD, LA PLATA COUNTY, COLORADO)

Cause No. _____

Docket No. _____

APPLICATION

COMES NOW XTO Energy Inc. (referred to herein as "Applicant"), by and through its undersigned attorneys, and makes application to the Colorado Oil and Gas Conservation Commission ("Commission") for an order approving up to four wells in each of certain established 320-acre drilling and spacing units to produce oil, gas, and associated hydrocarbons from the Fruitland Coal Seam Formation, Ignacio-Blanco Field, La Plata County, Colorado for the following described lands:

Township 32 North, Range 6 West, N.M.P.M

Section 5: S $\frac{1}{2}$

Section 8: W $\frac{1}{2}$

La Plata County, Colorado (together "Application Lands").

In support thereof, the Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado, and is a registered operator in good-standing with the Commission.
2. Applicant owns certain interests in the Application Lands.
3. On June 15, 1988, the Commission entered Order No. 112-60 which, among other things, established 320 acre drilling and spacing units for production of gas from the Fruitland Coal Seam formation and established that said units shall consist of the N $\frac{1}{2}$ and S $\frac{1}{2}$ or the E $\frac{1}{2}$ and W $\frac{1}{2}$ of the section with the permitted well located, when north of the north of Township 32 North, in the NW $\frac{1}{4}$ and SE $\frac{1}{4}$ of the section, and south of the north line of Township 32 North, in the NE $\frac{1}{4}$ and SW $\frac{1}{4}$ of the section, and no closer than 990 feet to any outer boundary, nor closer than 130 feet to any interior quarter section line. The Application Lands are subject to Order No. 112-60.
4. On October 22, 1999, the Commission entered Order No. 112-155 which, among other things, allowed an additional well in certain 320-acre drilling and spacing units for production from the Fruitland Coal Seam formation, with permitted wells in Township 32 to be located in the NW $\frac{1}{4}$ and SE $\frac{1}{4}$ of each section, and no closer than 990 feet to any outer boundary of the unit, nor

closer than 130 feet to any interior quarter section line, without exception by the Director. The Application Lands are subject to Order No. 112-155.

5. Applicant hereby requests that the Commission 1) approve up to a total of four wells in each 320-acre unit comprising the Application Lands; 2) establish that the productive interval of each wellbore shall be located no closer than 660 feet to any outer boundary of the unit; and 3) eliminate interior quarter section line setbacks to enable the drilling of horizontal wells.

6. Applicant submits that existing spacing orders do not enable efficient and economical drainage of each of the 320-acre drilling and spacing units comprising the Application Lands, and that the relief requested herein is necessary to prevent waste, protect correlative rights and to recover gas and associated hydrocarbons from the Fruitland Coal Seam formation in accordance with applicable law.

7. Applicant further submits that the requested additional wells can be developed in a manner consistent with the protection of public health, safety, and welfare.

8. The undersigned certifies that copies of this Application shall be served on each interested party as set forth on Exhibit A within the next seven days as required by Rule 507.b(4).

WHEREFORE, Applicant respectfully requests that this matter be set for hearing at the next regular hearing date, that notice thereof be given as required by law and that upon such hearing the Commission enter its order:

A. Approving up to a total of four wells in each 320-acre unit comprising the Application Lands;

B. Establishing that the productive interval of each wellbore shall be located no closer than 660 feet to any outer boundary of the unit;

C. Eliminating any interior quarter section line setbacks; and

D. Granting such other relief as may be appropriate.

DATED this 7th day of October, 2013.

Respectfully submitted,

XTO Energy Inc.
