DEVELOPMENT OF THE NIOBRARA FORMATION,	)	
WATTENBERG FIELD, WELD COUNTY, COLORADO	)	

APPLICATION

Bill Barrett Corporation ("BBC" or "Applicant"), by and through its attorneys, Burleson LLP, respectfully submits this Application to the Oil and Gas Conservation Commission of the State of Colorado (the "Commission") for an order authorizing the drilling of an additional fifteen (15) horizontal wells, for a total up to sixteen (16) horizontal wells, in the approximate 640-acre drilling and spacing unit established for Section 19, Township 5 North, Range 61 West, 6<sup>th</sup> P.M., for the production of oil, gas and associated hydrocarbons from the Niobrara Formation. In support of its Application, Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado, and has registered as an operator with the Commission.
2. Applicant owns majority leasehold interests in the below-listed lands:

Township 5 North, Range 61 West, 6<sup>th</sup> P.M.  
Section 19: All

These lands are hereinafter referred to as the "Application Lands." A map depicting the acreage comprising the Application Lands is attached hereto and marked as Exhibit A.

3. On or about February 22, 2011, the Commission entered Order Nos. 407-779 and 535-4 (corrected on April 4, 2013) which, among other things, established 640-acre drilling and spacing units for certain lands, including the Application Lands, and approved one horizontal well for each unit, for the production of oil, gas and associated hydrocarbons from the Niobrara Formation, with the treated interval of the permitted wellbore to be located no closer than 460 feet from the boundaries of the unit.

4. Pursuant to §34-60-116(4), C.R.S., Applicant requests the Commission authorize the drilling of additional wells with the drilling and spacing unit established for the Application Lands. Applicant requests the Commission order authorizing up to fifteen (15) additional horizontal wells, for a total of up to sixteen (16) horizontal wells, for the approximate 640-acre drilling and spacing unit established for the Application Lands, for the production of oil, gas and associated hydrocarbons from the Niobrara Formation.

5. Applicant states that, for any permitted wells to be drilled under this Application, the treated intervals of the wellbore should be not less than 460 feet from the unit

boundaries with an inter-well setback of not less than 250 feet from the treated interval of a well producing from the Niobrara Formation, without exception being granted by the Director.

6. Applicant states that any horizontal wells to be drilled under this Application will be drilled from multi-well pads on the surface of the drilling unit, or on adjacent lands with consent of the landowner, without exception being granted by the Director.

7. The granting of this Application is in accord with the Oil and Gas Conservation Act, found at §34-60-101, *et seq.*, C.R.S., and the Commission rules.

8. That the names and addresses of the interested parties (owners within the proposed drilling unit) and an associated certificate of service shall be submitted within seven days as required by Rule 503.e.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, that notice be given as required by law and that upon such hearing this Commission enter its order:

A. Authorizing the drilling of an additional fifteen (15) horizontal wells, for a total up to sixteen (16) horizontal wells, in the approximate 640-acre drilling and spacing unit established for Section 19, Township 5 North, Range 61 West, 6<sup>th</sup> P.M., for the production of oil, gas and associated hydrocarbons from the Niobrara Formation, with the treated intervals of the wellbore of any permitted wells to be located not less than 460 feet from the outer boundary of the proposed unit and not less than 250 feet from the treated interval of any well being drilled or producing from the Niobrara Formation, without exception being granted by the Director.

B. Requiring that any permitted wells to be drilled under this Application should be drilled from multi-well pads on the surface of the drilling unit, or on adjacent lands with consent of the landowner, without exception being granted by the Director.

C. For such other findings and orders as the Commission may deem proper or advisable in the premises.

DATED this 17<sup>th</sup> day of October, 2013.

Respectfully submitted,

BILL BARRETT CORPORATION
