

**BEFORE THE OIL AND GAS CONSERVATION COMMISSION OF
THE STATE OF COLORADO**

IN THE MATTER OF THE APPLICATION OF	)	
SYNERGY RESOURCES CORPORATION FOR AN	)	
ORDER TO ESTABLISH A 1280-ACRE DRILLING	)	CAUSE NO. 407
AND SPACING UNIT FOR HORIZONTAL WELLS	)	
TO THE CODELL AND NIOBRARA FORMATIONS	)	DOCKET NO. 150900 ____
IN SECTIONS 14, 23 AND 25, TOWNSHIP 5 NORTH,	)	
RANGE 66 WEST, WATTENBERG FIELD,	)	TYPE: SPACING
WELD COUNTY, COLORADO	)	

VERIFIED APPLICATION

COMES NOW, Synergy Resources Corporation, Operator No. 10311 ("Applicant" or "Synergy"), by its attorneys, Lohf Shaiman Jacobs Hyman & Feiger PC, and submits it's Verified Application to the Oil and Gas Conservation Commission of the State of Colorado (the "Commission"), for an order to establish an approximate 1280-acre drilling and spacing unit in the S½ of Section 14, all of Section 23, and N½ of Section 26, Township 5 North, Range 66 West, 6th P.M, for horizontal wells to the Codell and Niobrara Formations, and for the drilling of up to eighteen (18) horizontal wells to such formations in such unit, Wattenberg Field, Weld County, Colorado, and in support of its application states as follows:

1. Applicant is duly organized and authorized to conduct business in the State of Colorado and is a registered operator in good standing with the Commission.

2. Applicant owns leasehold interests in the following described lands in Weld County, Colorado, containing approximately 1280-acres (hereinafter, the "Application Lands"):

Township 5 North, Range 66 West, 6th P.M.

Section 14: S½

Section 23: All

Section 26: N½

3. On December 19, 1983, the Commission issued order No. 407-1 (amended March 29 2000) which, among other things, established 80-acre drilling and spacing units for the production of oil, gas and associated hydrocarbons from the Codell Formation, with the unit to be designated by the operator drilling the first well in each quarter section. The Order provided that the permitted well shall be located in the center of either 40-acre tract within the unit, with a tolerance of 200 feet in any direction, and the operator shall have the option to drill an additional well on the undrilled 40-acre tract in each 80-acre drilling and spacing unit. The Application Lands are subject to this Order for the Codell Formation.

4. On February 19, 1992, the Commission issued Order 407-87 (amended August 20, 1993), which, among other things, established 80-acre drilling and spacing units for production of oil, gas and assorted hydrocarbons from the Codell and Niobrara Formations, with the permitted well locations to be in accordance with Order No 407-1. The Application Lands are subject to this Order for the Codell and Niobrara Formations.

5. On April 27, 1988, the Commission adopted Rule 318A, the Greater Wattenberg Well Location Rule ("GWA Rule"), which among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all Cretaceous Age Formations from the base of the Dakota Formation to the surface. This Rule supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. On December 5, 2005, Rule 318A was amended, among other things, to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was again amended, among other things, to address the drilling of horizontal wells. The Application Lands are subject to Rule 318A for the Codell and Niobrara Formations.

6. Numerous vertical and/or directional wells have been drilled to the Codell and Niobrara Formations in the Application Lands, but no horizontal wells have yet been drilled to such Formations in the Application Lands.

7. Applicant desires to drill and complete horizontal wells to the Codell and Niobrara Formations in the Application Lands.

8. Applicant requests that the Application Lands be established as an approximate 1280-acre drilling and spacing unit for the drilling of horizontal wells to the Codell and/or Niobrara Formations. The requested order should provide that up to eighteen (18) optional horizontal wells may be drilled in the drilling and spacing unit to said Formations.

9. The establishment of an approximate 1280-acre drilling and spacing unit on the Application Lands, and the authority for up to eighteen (18) horizontal wells therein, will permit the economic and efficient drainage of the Codell and Niobrara Formations, will prevent waste, will not adversely affect correlative rights and will help assure the greatest ultimate recovery of oil and associated hydrocarbons from the Codell and Niobrara Formations.

10. The requested order should further provide that the treated interval of any such horizontal well shall be no closer than 460-feet from the boundaries of the unit, and no closer than one hundred fifty (150) feet from the treated interval of any well producing from the Codell and/or Niobrara Formations, without exception being granted by the Director of the Commission.

11. The requested order should further provide that all such horizontal wells must be drilled from no more than four multi-well pads in such unit or on surrounding lands without exception being granted by the Director of the Commission.

12. A drilling and spacing unit of the size and shape specified above is not smaller than the maximum area which can be economically and efficiently drained by a single horizontal well to the Codell and/or Niobrara Formations in the Application Lands.

13. The proposed horizontal wells can be developed in a manner consistent with protection of the environment, public health, safety and welfare.

14. The names and addresses of the interested parties according to the information and belief of the Applicant are set forth on **Exhibit A** attached hereto and made a part hereof.

WHEREFORE, the Applicant, Synergy Resources Corporation, respectfully requests that this matter be set for hearing in September 14, 2015, that notice be given as required by law, and upon such hearing this Commission enter its order to establish an approximate 1280-acre drilling and spacing unit in the Application lands and authorize the drilling of up to eighteen (18) horizontal wells therein for the production of oil, gas and associated hydrocarbons from the Codell and Niobrara Formations as requested above, under terms which are fair, reasonable and required by law.

Dated: July 15, 2015.
