

BEFORE THE OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO

IN THE MATTER OF THE PROMULGATION AND)	CAUSE NO. 518
ESTABLISHMENT OF FIELD RULES TO GOVERN)	
OPERATIONS IN THE THIRD CREEK FIELD,)	DOCKET NO. 0504-UP-03
DENVER COUNTY, COLORADO)	

NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On September 17, 1999, the Commission issued Order No. 518-1, which established a waterflood pilot project for the “J” Sand Formation in Section 7, Township 2 South, Range 65 West, 6th P.M. and Section 12, Township 2 South, Range 66 West, 6th P.M.

On March 7, 2005, Executive Petroleum Services, LLC by its representative, filed with the Commission a verified application for an order to approve an enhanced recovery unit for the below-listed lands. The surface and minerals are 100% owned by the City and County of Denver (“City”) for the unit area shown, except for 10 acres in the NE¹/₄ NE¹/₄ NW¹/₄ of Section 18, Township 2 South, Range 65 West, 6th P.M. where the surface is owned by EnCana Oil and Gas (USA) Inc. The operation for which authorization is requested is to inject water into the “J” Sand Formation for enhanced oil recovery within the proposed unit boundaries. All of the wells within the area of unitization are currently producing from the “J” Sand Formation. At this time it is proposed to convert three existing producing wells to injection and continue injection into the Champlin 117 Amoco #A-2 Well. Additionally, as part of this application, the City requests approval to add injection wells as needed in the future within the unit boundaries. The three (3) wells that would be converted to injection at this time would be the Champlin 117 Amoco #A-5 Well located in Section 7 and the Kallsen #3 and Kallsen #5 Wells both located in Section 18. It is estimated that the injection rate would be approximately 1500 BBL/day per well. A unit or cooperative agreement is not necessary for this application, as Denver International Airport owns all the surface and minerals in the unit and within ½ mile of the unit boundary. The only exception is the 10 acres described above in which EnCana Oil and Gas (USA), Inc. owns the surface only.
