NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On February 20, 1990, the Commission issued Order No. 139-14, which established 320-acre drilling and spacing units for the production of gas and associated hydrocarbons from the Williams Fork Formation underlying certain lands, including the S½ of Section 13, Township 6 South, Range 94 West, 6th P.M.

On February 21, 1995, the Commission issued Order No. 479-5, which, among other things, allowed the 320-acre drilling and spacing units established for certain lands including the S½ of Section 13, Township 6 South, Range 94 West, 6th P.M. eight (8) wells to be optionally drilled into and produced from the Williams Fork Formation, with the permitted well to be located no closer than 400 feet from the boundaries of the unit and no closer than 800 feet from any existing Williams Fork Formation well or wells.

On May 27, 2005, Williams Production RMT Company, (“Williams”) by its attorney, filed with the Commission a verified application for an order to pool all unleased mineral interests in the 320-acre drilling and spacing unit consisting of the S½ of Section 13, Township 6 South, Range 94 West, 6th P.M., for the development and operation of the Williams Fork Formation. The Clough RWF #14-13 Well was drilled as a producing well in the S½ of Section 13. Williams has made reasonable attempts to lease or seek consent to participate in the drilling of this well from Piceance Royalty Partnership, LLC, but has been unsuccessful in these attempts.
