NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On April 20, 1981, the Commission issued Order No. 166-15, which among other things, established 640-acre drilling and spacing units and 160-acre drilling and spacing units for production of gas from the Mesaverde Formation (including the Cozzette-Corcoran Sandstones), for certain lands including Township 10 South, Ranges 94 and 95 West 6<sup>th</sup> P.M.

On June 5, 2006, the Commission issued Order No. 166-23, which among other things, allowed the equivalent of one (1) well per 10 acres to be optionally drilled in each 160-acre drilling and spacing unit, for the production of gas from the Mesaverde Formation, with the permitted well to be located no closer than 100 feet from the boundary of the unit or lease line (if unspaced), without exception granted by the Director for certain lands including Township 10 South, Ranges 94 and 95 West, 6<sup>th</sup> P.M.

On September 6, 2006, Laramie Energy, LLC, by its attorney, filed with the Commission a verified application for an order to allow the equivalent of one (1) well per 10 acres, for the production of gas from the Mesaverde Formation (including the Cozzette-Corcoran Sandstones), with the permitted well to be located no closer than 100 feet from the lease line, without exception granted by the Director. In cases where the application lands abut or corner lands where the Commission has not, at the time of the drilling permit application, granted the right to drill 10-acre density Mesaverde Formation wells, the well should be located downhole no closer than 200 feet from the boundary or boundaries of the drilling unit abutting or cornering such lands, without exception granted by the Director, for the below-listed:

Township 10 South, Range 94 West, 6th P.M.

Section 24: SE<sup>1</sup>/<sub>4</sub> SE<sup>1</sup>/<sub>4</sub>

It is not intended that more than four (4) Mesaverde Formation wells would be drilled on the application lands per governmental quarter quarter section. Mesaverde Formation wells to be drilled on the application lands will be drilled from the surface either vertically or directionally from no more than one (1) pad located on any quarter quarter section unless exception is granted by the Director.
