NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On April 20, 1990, the Commission issued Order No. 440-12, which among other things, established 320-acre drilling and spacing units for certain lands, including Section 25, Township 6 South, Range 95 West, 6th P.M., for the production of gas and associated hydrocarbons from the Mesaverde Formation, with the permitted well to be located no closer than 600 feet from the boundaries of said unit and no closer than 1200 feet from any well producing or producible from the same formation.

On July 28, 2006, the Commission issued Order Nos. 139-64 and 440-35, which, among other things, allowed the equivalent of one well per ten (10) acres to be drilled on certain lands, including the S½ of Section 25, Township 6 South, Range 95 West, 6th P.M., for production from the Williams Fork Formation of the Mesaverde Group, with the permitted well to be located no closer than 100 feet from the outside boundary of the drilling and spacing unit unless such unit boundary abuts or corners lands in respect of which the Commission has not at the time of the drilling permit application granted the right to drill 10 acre density wells, in which event the well may be drilled downhole no closer than 200 feet from that portion of the unit boundary which so abuts or corners the lands in respect of which ten (10) acre density downhole drilling for the Williams Fork Formation wells has not been ordered by the Commission.

On October 16, 2007, Williams Production RMT Company, by its attorney, filed with the Commission a verified application for an order to vacate the 320-acre drilling and spacing unit consisting of the S½ of Section 25, Township 6 South, Range 95 West, 6th P.M., and establish a 160-acre drilling and spacing unit consisting of the SE¼, an 80-acre drilling and spacing unit consisting of the S½ SW¼, and a 40-acre drilling and spacing unit consisting of the NE¼ SW¼, all in said Section 25, for the production of gas and associated hydrocarbons from the Mesaverde Group, and continue to allow wells to be drilled in accordance with Order Nos. 139-64 and 440-35.
