On July 16, 1979, the Commission issued Order No. 139-8, which among other things, established 320-acre drilling and spacing units for production of gas and associated hydrocarbons for the Mesaverde Formation (which includes the Williams Fork and Iles Formations of the Mesaverde Group) for certain lands, including the W½ of Section 20 in Township 6 South, Range 93 West, 6th P.M. On June 20, 2005, the Commission issued Order No. 139-47 which granted rights to drill ten (10) acre density Williams Fork Formation wells for certain lands, including the W½ of said Section 20.

On September 13, 2007, Laramie Energy II, LLC, (“Laramie”) by its attorney, filed with the Commission a verified application for an order to pool all nonconsenting interests in the 320-acre drilling and spacing unit consisting of the W½ of Section 20 in Township 6 South, Range 93 West, 6th P.M., for the development and operation of the Williams Fork Formation and Iles Formation wells. Laramie plans to drill the Overcracker Federal 20-14D Well to be located in the SE¼ SW¼ of said Section 20. Parties which own unleased mineral interests in the subject lands have been offered the opportunity to lease their mineral interests or to participate in the drilling of the subject well. To date one or more of such parties have either elected not to lease their interests, not to participate in drilling of the subject well or have not responded. As to those parties which are lessees of lands within the drilling unit, such parties also have been offered the opportunity to participate in the drilling of the subject well.
