NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On December 19, 1983, the Commission issued Order No. 407-1 (amended on March 29, 2000 in accordance with Order No. 407-17, entered November 18, 1985), which among other things, established 80-acre drilling and spacing units for the production of oil and/or gas and associated hydrocarbons from the Codell Formation underlying certain lands, including Sections 4 and 5, Township 3 North, Range 64 West, 6th P.M., with the drilling and spacing unit to be designated by the operator drilling the first well in the quarter section, (or the Director, if the operator fails to designate). The permitted well shall be located in the center of either 40-acre tract within the drilling and spacing unit with a tolerance of 200 feet in any direction. The operator shall have the option to drill an additional well on the undrilled 40-acre tract in each 80-acre drilling and spacing unit.

On February 19, 1992, the Commission issued Order No. 407-87 (amended August 20, 1993), which among other things, established 80-acre drilling and spacing units for the production of oil and/or gas from the Codell and Niobrara Formations underlying certain lands, including Sections 4 and 5, Township 3 North, Range 64 West, 6th P.M., with the permitted well locations in accordance with the provisions of Order No. 407-1.

On April 27, 1998, the Commission adopted Rule 318A., which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all of the Cretaceous Age Formations from the base of the Dakota Formation to the surface. On December 5, 2005, Rule 318A. was amended to, among other things, allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. Sections 4 and 5, Township 3 North, Range 64 West, 6th P.M. are subject to this Rule for the Codell and Niobrara Formations.

On March 10, 2010, Noble Energy, Inc. (“Noble”), by its attorneys, filed with the Commission a verified application to pool all nonconsenting interests for a designated 160-acre wellbore spacing unit for the below-listed lands (to accommodate the bottomhole location of the **Guttersen D #04-32 Well**, with a planned bottomhole location of 2,484 feet FNL and 170 feet FWL in Section 4, Township 3 North, Range 64 West, 6th P.M.), for the development and operation of the Codell and Niobrara Formations:

Township 3 North, Range 64 West, 6th P.M.
Section 4: SW¼ NW¼ and NW¼ SW¼
Section 5: SE¼ NE¼ and NE¼ SE¼

Further, it is alleged that said well is presently proposed, and Noble requests that the pooling of all nonconsenting interests be retroactive to the spud date for said well.
