On December 19, 1983, the Commission issued Order No. 407-1 (amended on March 29, 2000 in accordance with Order No. 407-17, entered November 18, 1985), which among other things, established 80-acre drilling and spacing units for the production of oil and/or gas and associated hydrocarbons from the Codell Formation underlying certain lands, including Section 13, Township 4 North, Range 67 West, 6th P.M., with the drilling and spacing unit to be designated by the operator drilling the first well in the quarter section, (or the Director, if the operator fails to designate). The permitted well shall be located in the center of either 40-acre tract within the drilling and spacing unit with a tolerance of 200 feet in any direction. The operator shall have the option to drill an additional well on the undrilled 40-acre tract in each 80-acre drilling and spacing unit.

- (1) Establish a 160-acre drilling and spacing unit consisting of the SE $\frac{1}{4}$ of Section 13, Township 4 North, Range 67 West, 6th P.M., for production of gas and associated hydrocarbons from the Codell and Niobrara Formations, with well locations and commingling of production being authorized and determined in accordance with Rule 318A.
