On December 19, 1983, the Commission issued Order No. 407-1 (amended on March 29, 2000 in accordance with Order No. 407-17, entered November 18, 1985), which among other things, established 80-acre drilling and spacing units for the production of oil and/or gas and associated hydrocarbons from the Codell Formation underlying certain lands, including Section 13, Township 6 North, Range 65 West, 6th P.M., with the drilling and spacing unit to be designated by the operator drilling the first well in the quarter section, (or the Director, if the operator fails to designate). The permitted well shall be located in the center of either 40-acre tract within the drilling and spacing unit with a tolerance of 200 feet in any direction. The operator shall have the option to drill an additional well on the undrilled 40-acre tract in each 80-acre drilling and spacing unit.

On February 19, 1992, the Commission issued Order No. 407-87 (amended August 20, 1993), which among other things, established 80-acre drilling and spacing units for the production of oil and/or gas from the Codell and Niobrara Formations underlying certain lands, including Section 13, Township 6 North, Range 65 West, 6th P.M., with the permitted well locations in accordance with the provisions of Order No. 407-1.

On April 27, 1998, the Commission adopted Rule 318A., which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all of the Cretaceous Age Formations from the base of the Dakota Formation to the surface. Section 13, Township 6 North, Range 65 West, 6th P.M. is subject to this Rule for the Codell and Niobrara Formations.

On November 23, 2010, Noble Energy, Inc., by its attorneys, filed with the Commission a verified application to pool all nonconsenting interests in a designated 160-acre wellbore spacing unit for the below-listed lands (to accommodate the Dinner #13-35 Well (the "Well"), API #05-123-32314, with a planned bottomhole location of 1,456 feet FSL and 1,164 feet FWL of Section 13, Township 6 North, Range 65 West, 6th P.M.), for the development and operation of the Codell and Niobrara Formations, effective as of the spud date of the Well:
