NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On February 19, 1992, the Commission issued Order No. 407-87 (amended August 20, 1993), which among other things, established 80-acre drilling and spacing units for the production of oil, gas and associated hydrocarbons from the Codell and Niobrara Formations underlying certain lands, with the permitted well locations in accordance with the provisions of Order No. 407-1. Section 6, Township 7 North, Range 63 West, 6<sup>th</sup> P.M. is subject to this Order for the Niobrara Formation.

On April 27, 1998, the Commission adopted Rule 318A., the Greater Wattenberg Well Location Rule ("GWA" rule), which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all of the Cretaceous Age Formations from the base of the Dakota Formation to the surface. Pursuant to Rule 318A.j., Rule 318A. supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. Section 6, Township 7 North, Range 63 West, 6<sup>th</sup> P.M. is subject to Rule 318A., for the production of oil, gas and associated hydrocarbons from the Niobrara Formation.

On March 30, 2012, Noble Energy, Inc. ("Noble" or "Applicant"), by its attorneys, filed with the Commission a verified application ("Application") for an order to pool all interests in an approximate 316.88-acre designated wellbore spacing unit for the below-described lands ("Application Lands") to accommodate the Jones AC 06-75HN Well (API No. 05-123-35214), for the development and operation of the Niobrara Formation, effective as of the earlier of the date of the Application, or the date that any of the costs specified in C.R.S. § 34-60-116(7)(b)(II) were first incurred for the drilling of the well, and to subject any nonconsenting interests to the cost recovery provisions of C.R.S. § 34-60-116(7):
