NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On April 27, 1988, the Commission adopted Rule 318A, which among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all Cretaceous Age Formations from the base of the Dakota Formation to the surface. Rule 318A. supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. On December 5, 2005, Rule 318A was amended, among other things, to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was again amended, among other things, to address drilling of horizontal wells. Section 22, Township 3 North, Range 63 West, 6th P.M. is subject to this Order for the Niobrara Formation.

On June 27, 2011 (Corrected February 14, 2012), the Commission issued Order No. 407-560 which, among other things, established nine approximate 640-acre drilling and spacing units, and approved one horizontal well within each unit, for the production of oil, gas and associated hydrocarbons from the Niobrara Formation, with the treated interval of the wellbore to be located no closer than 460 feet from the unit boundaries. Section 22, Township 3 North, Range 63 West, 6th P.M. is subject to this Order for the Niobrara Formation.

On December 12, 2011, the Commission issued Order No. 407-528 which, among other things, approved two horizontal wells within each unit, with the treated interval of the wellbore to be located no closer than 460 feet from the unit boundaries. Section 22, Township 3 North, Range 63 West, 6th P.M. is subject to this Order for the Niobrara Formation.

On June 21, 2012, Marathon Oil Company ("Marathon" or "Applicant"), by its attorneys, filed with the Commission pursuant to § 34-60-116 C.R.S., a verified application ("Application") for an order to approve up to four horizontal wells within the unit for the below-described lands ("Application Lands"), for the production of oil, gas and associated hydrocarbons from the Niobrara Formation, with the surface locations consistent with Rule 318A and the treated interval of the wellbore to be located no closer than 460 feet from the unit boundaries, without exception being granted by the Director:
