NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On April 4, 2011, the Commission entered Order No. 535-9 which, among other things, established an approximate 1280-acre drilling and spacing unit, and approved one horizontal well within the unit, for the production of oil, gas and associated hydrocarbons from the Niobrara Formation, with perforated lateral to be located no closer than 300 feet from any wellbore which has perforated the Niobrara Formation, without exception being granted by the Director. Sections 1 and 12, Township 7 North, Range 62 West, 6TH P.M. are subject to this Order for the Niobrara Formation.

On April 27, 1998, the Commission entered Rule 318A which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all Cretaceous Age Formations from the base of the Dakota Formation to the surface. Rule 318A supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. On December 5, 2005, Rule 318A was amended, among other things, to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was again amended, among other things, to address drilling of horizontal wells. Sections 1 and 12, Township 7 North, Range 62 West, 6TH P.M. are subject to Rule 318A for the Niobrara Formation.

On April 18, 2013, Continental Resources, Inc. ("Continental" or "Applicant"), by its attorneys, filed with the Commission pursuant to § 34-60-116, C.R.S., a verified application ("Application") for an order to approve up to two horizontal wells within an approximate 1280-acre drilling and spacing unit established for the below-described lands ("Application Lands") for the production of oil, gas and associated hydrocarbons from the Niobrara Formation, with the treated interval of the horizontal wellbore to be no closer than 460 feet from the unit boundaries, and no closer than 600 feet from the treated interval of any other wellbore located in the unit, without exception being granted by the Director:
