NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On April 27, 1988, the Commission adopted Rule 318A which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplate a well and to commingle any or all Cretaceous Age Formations from the base of the Dakota Formation to the surface. Rule 318A supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. On December 5, 2005, Rule 318A was amended, among other things, to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was again amended, among other things, to address drilling of horizontal wells. Section 24, Township 7 North, Range 66 West, 6th P.M. is subject to Rule 318A for the Codell-Niobrara Formation.

On May 30, 2013, PDC Energy, Inc. ("PDC" or "Applicant"), by its attorneys, filed with the Commission pursuant to §34-60-116 C.R.S., a verified application ("Application") for an order to pool all interests in four approximate 160-acre to 320-acre designated wellbore spacing units established for the below-described lands ("Application Lands"), for the development and operation of the Codell-Niobrara Formation, effective as of the earlier of the date of the Application, or the date that any of the costs specified in C.R.S. §34-60-116(7)(b)(II) were first incurred for the drilling of the Dalton 24Q-441 Well (API No. 05-123-36098), Dalton 24L-441 Well (API No. 05-123-35824), Dalton 24Q-241 Well (API No. 05-123-36100), and Dalton 24L-201 Well (API No. 05-123-35826) (collectively "Wells"), and to subject any nonconsenting interests to the cost recovery provisions of C.R.S. §34-60-116(7):
