API No. 05-067-06894	API No. 05-067-07494

Jeff,

COGIS records indicate that the subject wells are being used for pressure monitoring. The COGCC considers pressure monitoring wells as SI and still require an ***annual*** report via the form 4 – Sundry Notice stating the well’s status and future plans (rule 319.b.) as well as a form 21 - Mechanical Integrity Test for wells SI longer than two years (rule 326.b.). The MIT is valid for five years.

Please perform the required MIT’s by 4-1-07 and submit the sundry notices by 2-1-07.

Thank you,

Mark Weems – Area Engineer
