Ladies/Gentlemen:

Kerr-McGee Oil & Gas Onshore LP ("KMG") respectfully requests the Director approve an exception to Rule 318A.a to allow the Northglenn State 4-36 well to be drilled at the above referenced location. Rule 318A.a of the Colorado Oil and Gas Commission's Rules and Regulations requires wells to be drilled/completed in a square with sides four hundred (400) feet in length, the center of which is the center of any quarter/quarter section or in the center of any quarter section with the four sides being (800) feet in length. The Northglenn State 4-36 is being permitted is an exception location at the request of the surface owner.

Under the Revised Rule 318A.c of the Colorado Oil and Gas Commission's Rules and Regulations, it requires any new twinning well to be located within 50 feet of an exiting well. The Northglenn State 4-36 is more than 50 feet from the nearest oil and gas well.

Dear Mr. Pietro:

Kerr-McGee Oil and Gas Onshore LP plans to drill the listed oil and gas wells from the above described surface locations.

Rule 318A of the Colorado Oil and Gas Commission's Rules and Regulations requires the well be drilled in a square with sides four hundred (400) feet in length, the center of which is the center of any quarter/quarter, or a square with sides eight hundred (800) feet in length, the center of which is the center of any quarter. Rule 318A of the Colorado Oil and Gas Commission's Rules and Regulations also requires any new twinned well be located 50' or less from an existing oil and gas well. We will drill the wells at the above described location, but we will need this waiver as this location is more than 50' from the existing well and falls outside the legal drilling window.

Please waive both of the above referenced requirements showing your approval by signing below. Should you have any questions, please contact our office. Thank you for your consideration.

Very truly yours,  
KERR-MCGEE OIL AND GAS ONSHORE LP

  
Terry D. Burright

I/we waive the above requirement and approve the above described location.
