Subject: K P Kauffman Company State 1-14, NENE Sec 14 T4S R62W, Arapahoe County, Form 2A #1692853 Review

Sherry,

I have been reviewing the K P Kauffman State 1-14 **Form 2A** (#1692853). COGCC requests the following clarifications regarding the data K P Kauffman has submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment.

1. **Cultural (Section 9):** The Form 2A indicates distances to nearest building of 5280 feet and the nearest above ground utility of 5280 feet. During COGCC's review of the 2005 aerial photograph, the distance to the nearest

building was 6178 feet, but I couldn't verify the distance to the nearest above ground utility. Could you let me know where and how the nearest above ground utility was located. I can make the changes if you send an email with this request.

1. **Water Resources (Section 14):** Form 2A indicates that the distance to the nearest surface water is 222 feet. COGCC guidelines require designating all locations with close proximity to surface water (i.e., less than 500 feet) a ***sensitive area*** and requiring the following conditions of approval (COAs):

COA 4 - Location is in a sensitive area because of close proximity to surface water, therefore, operator must ensure 110 percent secondary containment for any volume of fluids contained at well site during drilling and completion operations.

COA 5 - Operator must implement best management practices to contain any unintentional release of fluids.

COGCC requires your written acknowledgement of these COAs prior to passing the OGLA review. If you have any questions, please do not hesitate to call me at (970) 625-2497 x5 (office) or (970) 309-2514 (cell), or email. Thanks.

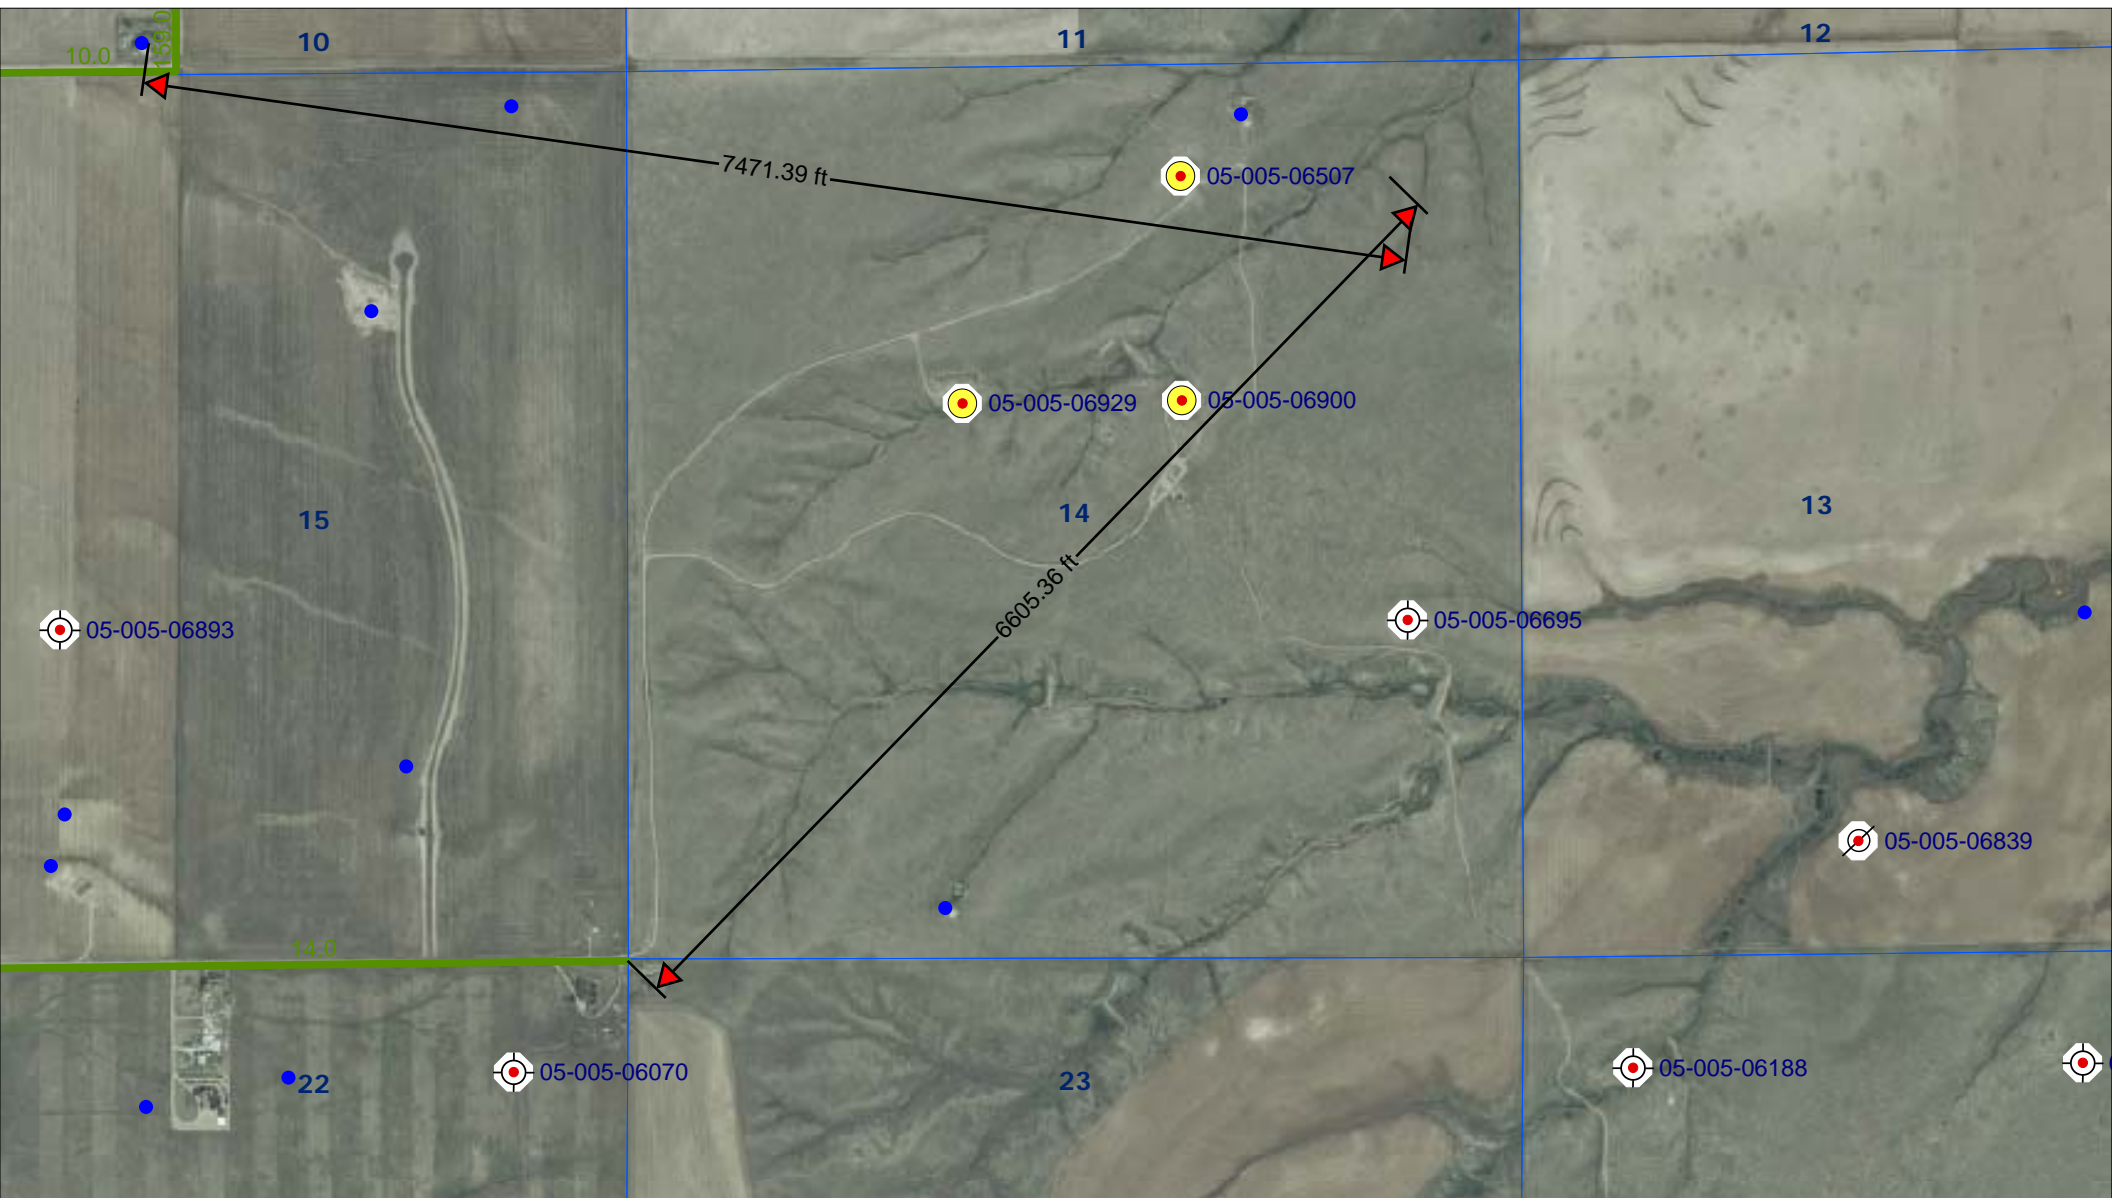

Dave
