David,

Please go ahead and change the distance to the nearest railroad as mentioned in the email below. When I was filling out the form through the eform interface it would not display 5 digits so I assumed that it wanted the number in miles.

Thank you for fixing these issues for us.

Thanks,

### Nick Callaway

Nick  
Here are some e-mails I got from Dave Kubeczko from the State. Do you know him? Are you getting these from the State also or should I keep forwarding them?

Kent,

I have been reviewing the St James Energy Frank 1-2 **Form 2A** (#400009730). COGCC requests the following clarifications regarding the data St James has submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment.

1. **Cultural (Section 9):** The Form 2A indicates distances to nearest railroad is 3 (I believe it is 3 miles). During COGCC's review of the 2005 aerial photograph, the distance to the nearest railroad was 19958 feet. I can make the change if you send an email with this request.

This is a minor change and I would like to pass this Form 2A. If you have any questions, please do not hesitate to call me at (970) 625-2497 x5 (office) or (970) 309-2514 (cell), or email. Thanks.

Dave
