Re: **30-day Notice Letter**
Kortum #1-21 Well, CNW Sec. 21, T1S-R67W

Dear Ms. Castodale,

HRM Resources, LLC (HRM) is successor to Encana Energy Resources, Inc. in the 2003 Surface Damage Agreement between the parties. HRM is applying to the Colorado Oil & Gas Conservation Commission (COGCC) for permission to recomplate the above referenced well from the J-sand to the Codell formation. Pursuant to COGCC regulations, HRM is required to provide you with certain information. This is 7-day notice of HRM's intent to conduct subsequent well operations. Operations should commence upon approval of the recompletion permit by the COGCC and this will hopefully be within the next 30 days.

There will be no significant surface disturbances associated with this recompletion. No pits will be dug, and the work will be done in daylight hours with a small portable rig.

Pursuant to COGCC Rule 306, should you desire consultation about this operation, please return the attached self-addressed postage-paid card to us.

The name of the operator of the well is: HRM Resources, LLC
You may contact the following individual concerning the proposed operations:

Andy Peterson
2154 W. Eisenhower Blvd
Loveland, CO 80537
970-669-7411

The legal description of the location of the well is:
1321' FNL & 1322' FWL (CNW) Section 21-T1S-R67W

The surface owner has the responsibility to notify any tenants of the proposed operations.

A copy of the COGCC informational brochure for surface owners is enclosed.

Thank you for your attention to this matter.

Sincerely,

HRM RESOURCES, LLC

Andy Peterson
VP Operations
