RE: **Well Set-Back (Twinning) Exception Consent**
Hall 25-34
Section 25, Township 6 North, Range 67 West, 6th PM
Weld County, CO

Dear Mr. Hall:

Orr Energy plans to drill the Hall 25-34 well at the referenced location, specifically described as 473.7 FSL and 793.8 FEL. The well is being proposed at a surface location approximately 232 feet from an existing surface well location, Long #1 (SW/SE of Section 25, T6N R67W). COGCC Rule 318.A.c.(2) requires a well to be within 50 feet of a current well (twinning) unless the surface owner approves of the placement of the proposed location.

By signing this letter you hereby grant your consent to Orr Energy to locate the Hall 25-34 more than 50 feet from the existing well.

Thank you for your assistance in this matter. If you have any questions please do not hesitate to call me at Petroleum Field Services (303) 928-7128.
