
All data, interpretations and opinions contained or otherwise furnished or after measurements are not warranted and are based on and guaranteed for accuracy or completeness only to the extent that, in arriving at them, we have used methods and practices recognized as sound by petroleum engineers and petrophysicists. Such methods and practices are not infallible and we do not warrant that any of the data, interpretations or opinions furnished by us will be correct, and we shall not be liable for any loss, expense or damage suffered by reason of any use made thereof, whether or not caused by our negligence, whether ordinary or gross. We do not guarantee the productivity of any oil or gas well or any reservoir. We do not make any warranty, express or implied, of merchantability or fitness for a particular purpose with respect to any data, interpretation or opinion furnished by us, and in no event will we be liable for special, consequential or indirect damages. These interpretations are also subject to our General Terms and Conditions as set out in our current Price Schedule.
