Subject: Black Hills Homer Deep Unit 21-41 well pad

Dave,
The Black Hills Production Homer Deep Unit 21-41 is a federal minerals and federal surface well location. The BLM stipulations attached to the permit are adequate for wildlife protection at the site.
CDOWs comments were not included in Silverlight because negotiations with the operator extended beyond 2-21-2010 without conclusion. However, CDOW is satisfied with BML stipulations.
Please let me know if you have questions, clarification, or email path of correspondence.

Thanks

Michael Warren
