**Subject:** RE: Frederick State Tank Battery  
**Attachments:** FREDERICK STATE TANK HYDROLOGY MAP.pdf; Tank Battery 400' Radius.pdf

Attached please find the updated Hydrology Map and another copy of the 400' Radius Map that was supplied to you the other day. The 400' Radius does reflect the new Lat and Longs.

Thanks Cheryl.

This location drawing would be a good example of how future location drawings will need to look. The 400 foot "buffer" will need to extend from the perimeter of the blue box. A point within the box (a wellhead for example) will be selected and used to reference distances. The same thing would apply to the Hydrology Map.

I guess we'll need some new lat/longs to get the COGCC website in agreement with the figure as well.

**Subject:** Frederick State Tank Battery

Attached is an updated 400' Radius for the Frederick State Tank Battery. Per Dave Haertel, KPK does not have a facility at this location.
