Dave,

1. Anticipated construction date is 5/1/10 and interim reclamation would begin 9/1/10.
2. Gas and water lines will be co-located with the roads.

Let me know if you need anything else.

Thanks,
Jessica

Subject: Black Hills Plateau Production, Winter Flats 15-43-99, NESE Sec 15 T9S R99W, Mesa County, Form 2A (#400001070) Review

Jessica,

I have been reviewing the Winter Flats 15-43-99 (#400001070) **Form 2A**. COGCC requests the following clarifications regarding the data Black Hills has submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment.

1. **Construction (Section 6):** The dates for construction (10/01/2009) and interim reclamation (03/01/2010) appear to be incorrect since the construction date has already passed. Can you confirm the estimated drilling/completion schedule and these dates. I can make the change if you send an email with this request.
2. **Rule 303.d.(3).C.:** Neither the scaled Addendum to Legal Plat for Winter Flats 15-43-99 (Sheet 2b of 11) nor the Location Drawing Cut Sheet for Winter Flats 15-43-99 (Sheet 3 of 11), show the location of the proposed gas and water pipelines. One of these drawings should show the anticipated locations of these new and/or existing facilities. Otherwise, a statement indicating that the proposed pipeline locations will follow the access road in the comments section would be sufficient. I can make the change if you send an email with this request. In addition, there needs to be a scaled drawing showing all visible improvements within 400 feet of the proposed disturbance for the pad (there needs to be a line on the drawing at a distance of 400 feet around the edge of the disturbance).

These issues need to be addressed prior to passing the OGLA Form 2A permit review. If you have any questions, please do not hesitate to call me at (970) 625-2497 x5 (office) or (970) 309-2514 (cell), or email. Thanks.

Dave
