RE: Valley Farms J Pad  
NWNW, Section 13-T6S-R92W, Garfield County, Colorado  
Notification to Public Water Supply System, Per Rule 317B

Mr. Stevens:

In compliance with Colorado Oil and Gas Conservation Commission Rule 317B, Antero Resources Piceance Corporation would like to notify you that the subject oil and gas location, Valley Farms J Pad, is proposed to be located in a COGCC Rule 317B intermediate buffer zone (301'-500' from surface water supply area), as shown in the attached Hydrology Map. Specifically, the proposed oil and gas location will be 349' from Divide Creek and the City of Rifle's public water supply system is within fifteen (15) stream miles of our proposed location. Per COGCC Rule 317B.d., operators are required to send notification to "potentially impacted Public Water System(s) within fifteen (15) stream miles downstream of the DCPS Operation prior to commencement of new surface disturbing activities at this site."

Please be advised that, as required by COGCC Rule 317B, Antero has an emergency response plan in place and if a spill or release that threatens to impact the City of Rifle's Public Water System is discovered, we will notify you immediately following discovery of the release.

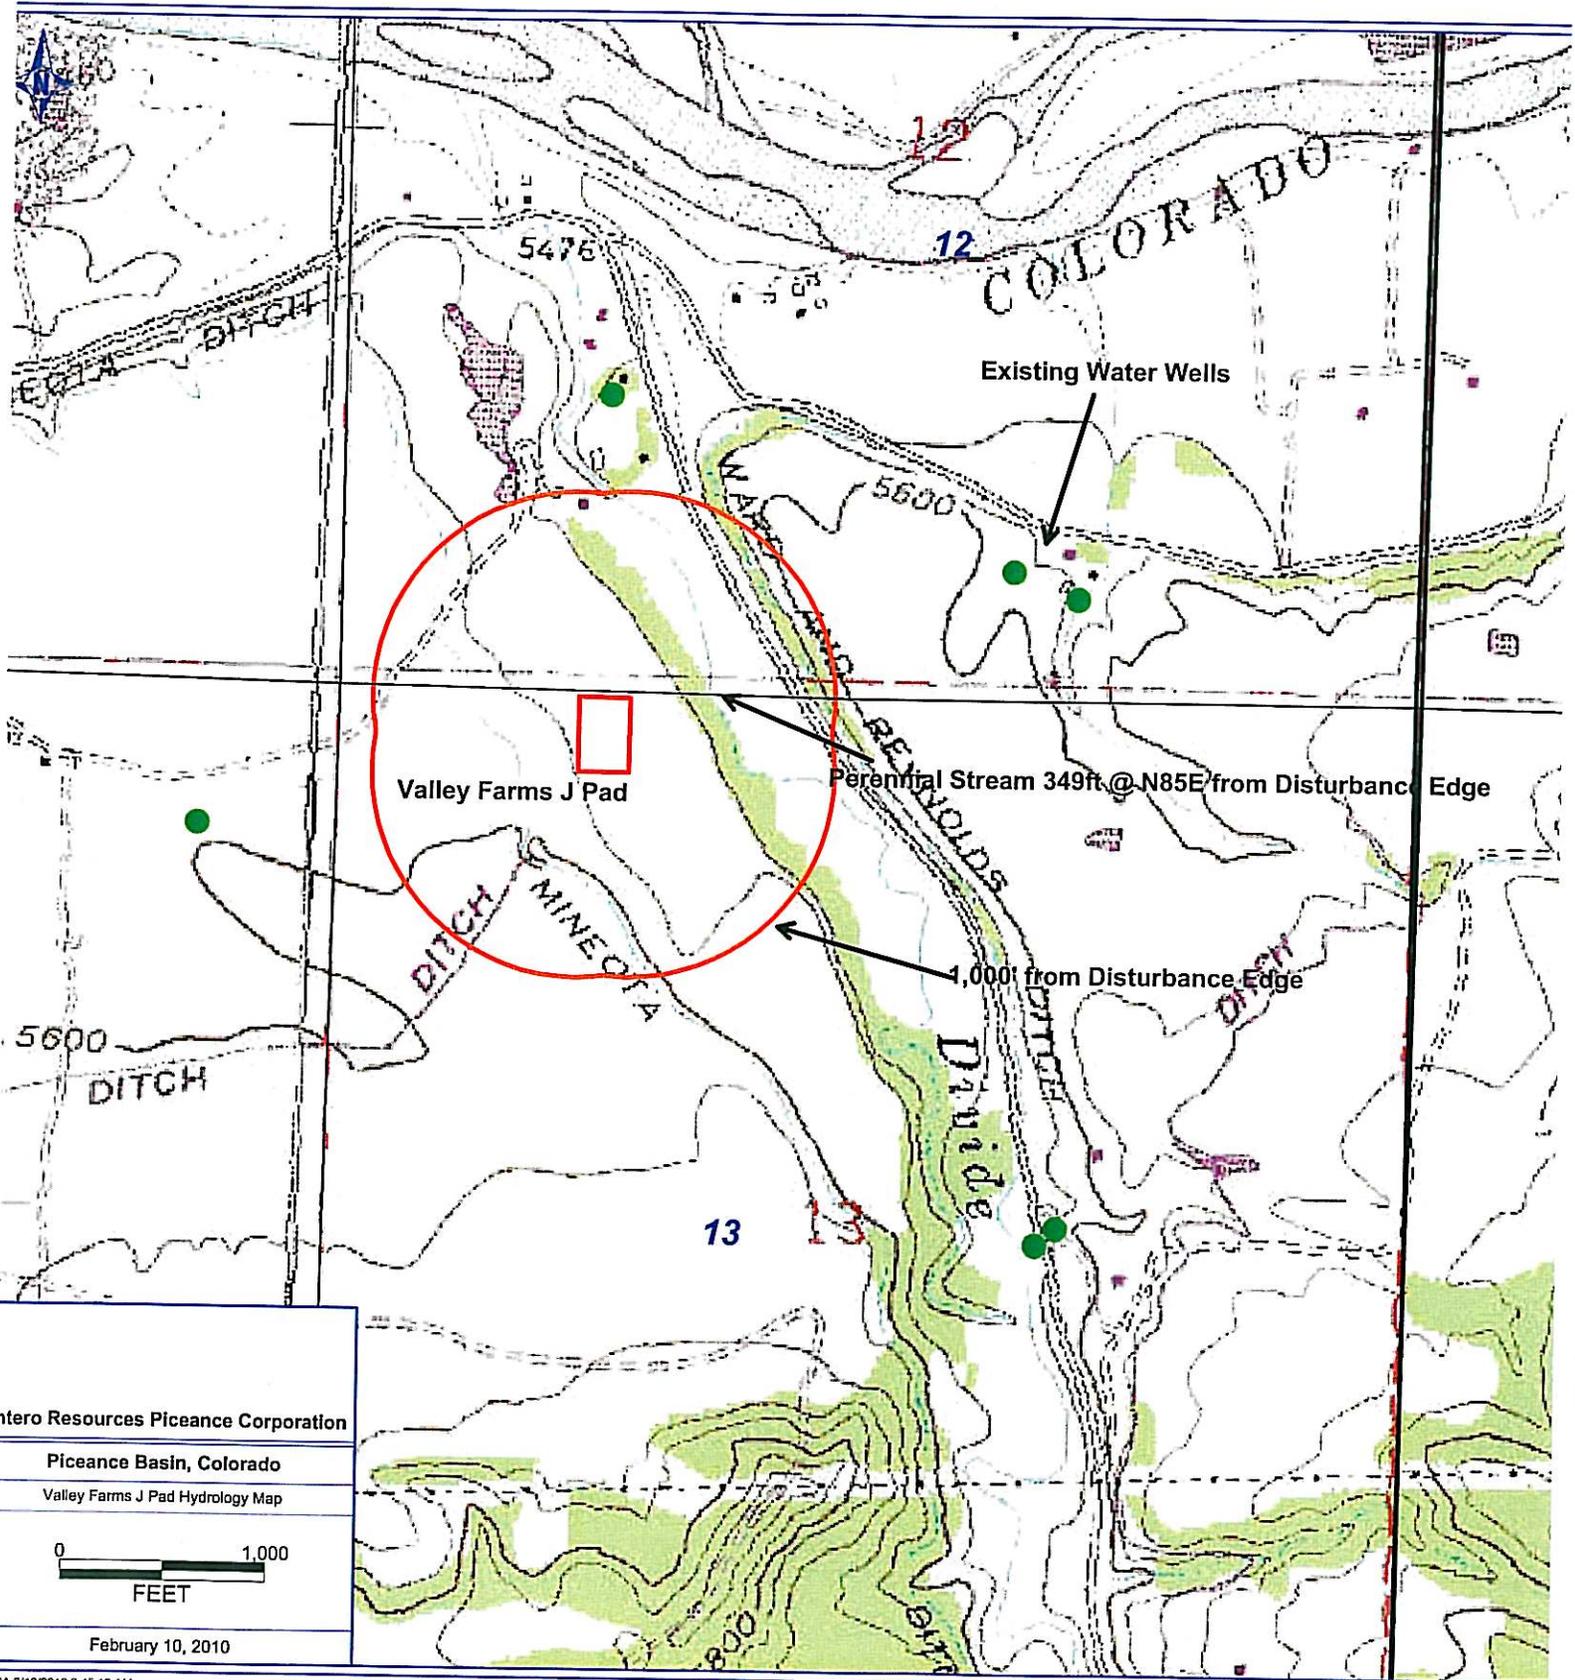

Please contact me at (303) 357-6412 or Jerry Alberts, Environmental and Regulatory Manager, at (303) 357-7341 if you have any questions.

Sincerely,

Hannah Knopping  
Permit Representative
