

Tank Battery Location Map

Ford 30-16 well

I, Duane Russell, do certify that the coordinates indicated above are true and accurate readings for the proposed location.

From tanks, distances are:

To fence to north: 16' north

To edge of road: 34' north

To center of road: 46' north

To powerline support: 61' west (no powerline to pole, just a support pole)

To fence to west: 176' west (not on section line)

-  Proposed access
-  Barbed-wire fence
-  Overhead power lines
