Michael,

Unless it conflicts with the SUA (which hopefully EnCana would know), then it does not need surface owner approval .

Dave

Dave,  
I intend to attach this BMP to the permit and just wanted to give you a heads up. I do not know if it needs landowner consent.  
Michael

Michael,

This is acceptable.

Thanks

DeAnne,  
I am in the process of reviewing the COGCC Form 2A permit for the Daybreak Federal 19-2 (PJ19) pad. I would like EnCana to consider adding the following BMP to the list of wildlife BMPs that have been submitted for this pad.

If this language is acceptable to EnCana please let me know and copy Dave Kubeczko at COGCC. His email is [Dave.Kubeczko@state.co.us](mailto:Dave.Kubeczko@state.co.us)

Post-development well site visitations will be conducted between the hours of 9:00 a.m. and 4:00 p.m. during December 1 and April 15 in elk winter concentration areas. On the occasion that well conditions are not stabilized, EnCana will be allowed to work any hours during the day or year, as necessary to stabilize the well. This BMP excludes fluid movement in order to protect the environment and workovers required for maintenance of the well. Hours for well site visits will not be restricted outside the elk winter concentration area period of December 1 to April 15."

Thanks for your help with this BMP.
