### 15. Comments:

The wells in the SW/4 of Sec. 29, T1N, R68W will "twin" the existing Noble Pratt 29-3 well. We are surveying 47' from the existing well and 20' between Synergy Resources five proposed directional wells. Synergy has agreed to drill these wells directionally, as the surface and mineral owner had requested as they are working to sell the surface for a future residential development.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
